THE FORTY-SIXTH ANNUAL REPORT
OF THE
BOARD OF MANAGERS
OF
ST. LUKE'S HOSPITAL,
FROM
OCTOBER 1, 1903, TO SEPTEMBER 30, 1904.

For several years reference has been made in our Annual Report to the great necessity of providing a Pavilion for Private Patients. It was but a short time after our last Report was compiled that Mrs. Margaret J. Plant made known her desire to build this pavilion and requested our Board to have plans drawn and to secure estimates for the erection of the pavilion, allowing for the most approved and scientific construction. This munificent offer was accepted with sincere appreciation and profound gratitude.

Early in the spring, ground was broken for the Margaret J. Plant Pavilion, and since then the work in connection with its erection has been steadily prosecuted. It is hoped that it will be ready for occupancy next Autumn. The building, which is located on the northwest corner of Morningside Drive and 113th Street, will contain sixty-five rooms for patients, a culinary department, operating room with dependencies, solarium, a hydrotherapeutic department, quarters for the House Staff of this Pavilion, and a residence for the Superintendent. This generous gift will not only provide a place where persons with means can be cared for with all the privacy and comfort that could be desired, but will also open the way for the enlargement of the charitable work of the Hospital; first, by

giving the entire Vanderbilt Pavilion to the use for which it was intended, viz., a home for nurses; and secondly, by augmenting the income through increased revenue to be derived from the board of private patients.

The number of patients treated during the year was 349 in excess of those treated last year, and the number of days of Hospital treatment was larger by 1290.

That the hospital accommodations of this city are inadequate to meet the needs of the poor, cannot be doubted by any who will read the reports of the various Hospitals and ascertain the number of applicants who are refused admission through lack of room. The wards of St. Luke's now open are almost always overcrowded. Often additional cots have to be brought into use to accommodate those, whose admission to the Hospital was dictated by human compassion, even when the wards were already filled to their normal capacity. That the overcrowding of wards is not in accordance with the best treatment of patients cannot be denied, but where the situation means care or no care, and many times life or death to the applicant, we are obliged to do the best we can.

It is true that four wards still remain closed, but it is impossible to open them as long as there is a discrepancy between our annual expenses and our annual income. The discrepancy this year was \$17,235.71, a sum less nearly by one half than for several previous years, but prudence and sound business policy demand that this difference be greatly diminished before we can undertake the opening of more wards.

Particular attention is invited to the Century Fund and Subscription List on pages 16 and 17. Within the last two years, many of the old friends of St. Luke's and subscribers to the Century Fund have been taken away through death, and new subscribers have not appeared in sufficient numbers to justify the use of the term "Century." The number this year is but eighty-seven. We hope that in the future it will be maintained at the original number, one hundred,

and friends of the institution are earnestly begged to help to this end.

During the year the gifts and legacies, besides that of Mrs. Margaret J. Plant, were as follows:

Additional payment on account of legacy of James D. Sarven	\$ 518 40
Legacy from Evelina Dortic, less tax.	2,850 00
Gift from unknown benefactor.	6,000 00
Tax refunded on legacy of Mary J. Walker.	4,889 26
First payment on account of private room for nurses	4,272 73
Transferred from restricted endowments former donation by Trained Nurses N. A. Society.	727 27
One bed endowed in perpetuity by Mrs. Anna F. Wright in memory of her husband, G. Granville Wright	7,500 00
One bed endowed in perpetuity by Mrs. William B. Coughtry in memory of her son, Arthur Coughtry	7,500 00
One bed endowed in perpetuity by Mrs. Mary E. Fuller and Miss Louise Easton in memory of their brother, Henry Easton	7,500 00
One bed endowed in perpetuity by John G. Hecksher, Esq., in memory of his wife, Mary Travers Hecksher.	7,500 00
Received from Mr. Deane Miller, Dr. Charles G. Miller, and Mr. Clarke A. Miller in compliance with the request of Dr. Guy Bryan Miller, deceased, for a fund the annual income of which shall be applied to the furtherance of scientific work and investigation in the pathological laboratory.	10,000 00
Received from the children of Herman D. and Elizabeth Wyman Aldrich, deceased, one marble statue, "Queen Esther Presenting her Petition to King Ahasuerus."	

The following changes have transpired in the Surgical and Medical Staff of the Hospital and Dispensary:

On December 28, 1903, Dr. Austin W. Hollis, a graduate of St. Luke's, and for eight years Chief of the Medical Division of the Dispensary, was appointed Attending Physician to the Hospital.

On the same date, Dr. W. S. Schley was appointed Assistant to Dr. Abbe; Dr. John Douglas was appointed Assistant to Dr. Curtis; Dr. Henry Hamilton M. Lyle was appointed Assistant to Dr. Markoe; and Dr. K. Walton Martin was appointed Assistant to Dr. Gibson.

On October 26th, Dr. W. P. Herrick was appointed Assistant Surgeon to the Dispensary.

On November 30th, Dr. John Douglas resigned from the position of Assistant Surgeon to the Dispensary.

On December 28th, an Ophthalmic Department of the Dispensary was inaugurated with Dr. Colman W. Cutler as Chief and Dr. Alfred Wiener as Assistant.

On February 29th, 1904, Dr. J. Preston Miller was appointed Assistant Physician to the Dispensary.

On March 28th, Dr. George C. Freeborn became Assistant in Pathology and on the same date Dr. Emery J. Thomas was appointed Assistant Surgeon to the Dispensary.

On April 25th, Dr. Thoms S. Southworth resigned as Medical Registrar.

On May 31st, Dr. Everett W. Gould was appointed Medical Registrar and Dr. F. O. Virgin was appointed Assistant in Gynecology to the Dispensary.

Mr. George Blagden, a valued member of our Board since December 26, 1890, and for many years a member of the Executive Committee, resigned on September 26th from the Board on account of continued ill health.

His Grace the Lord Archbishop of Canterbury visited the Hospital on September 28th. After a short service in the chapel, he addressed the officers and nurses and dismissed them with Benediction.

We acknowledge with deep gratitude the services of the Attending and Consulting Physicians and Surgeons which have been rendered as hitherto gratuitously to the ward patients.

By order of the Board of Managers.

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 26. The relation of the receipts to the expenditures is found in the Treasurers' Report, page 14.

The number of subscribers last year was 83.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least five hundred thousand dollars

TO THE

General Endowment Fund

Four wards stand vacant because there is not money to open them.

Three hundred and forty-seven patients were refused admission last year because of insufficient revenue.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

It is especially urged that an additional male surgical ward be opened.

Your Help is Earnestly Solicited.

For benefactions needed, see next page.

For endowment of beds and rooms, see page 53.

For Century Fund, see page 16.

A Large Benefaction
Is Also Needed

**For the Endowment of the Pathological
Department.**

No less in the training of nurses than in other educational work are change and progress demanded. How can we better educate our pupils, give more thorough care to the sick within our own walls, and greater satisfaction to those to whom our nurses minister after their graduation, are questions constantly before our minds. But with these questions comes another problem no less perplexing, how can we do these things without increasing the expense of the Hospital or curtailing the number of patients treated?

To accomplish our purpose and meet these difficulties, it has been decided to provide each nurse with her uniforms and textbooks instead of the monthly allowance of ten dollars, heretofore given for that purpose. A larger course of probationary instruction has been inaugurated, and two Supervisors, one for the Medical and the other for the Surgical Division, have been added to the corps already existing of a Directress and Assistant Directress of Nurses.

A demonstration of practical nursing was given in the operating theatre before the Board of Managers, the Medical Board, and guests on the afternoon of April the 9th.

On the evening of April 12th, followed by a reception, the graduating exercises with appropriate religious services were held in the chapel. The President of the Hospital presented the diplomas, the Right Reverend, the Bishop of Nova Scotia delivered the address, and the Right Reverend, the Bishop of Central Pennsylvania pronounced the benediction.

By a special arrangement with the Board of Managers for the endowment of a private room for the use of graduates during illness, the amount usually required for endowment was modified and the nurses have had the privilege of using the room for a time equal to one third of the calendar year by the payment of the first instalment of five thousand dollars, amounting to one third of the

full endowment. This money represents the proceeds of a fair held last autumn.

A registry for graduates of the Training School has been established at the Hospital and has been operated with success. Physicians and others can obtain nurses by applying to the Registrar. The telephone number is 782 Morningside.

We beg to express our gratitude and appreciation to the House Staff for instruction given to the nurses, and to Drs. Hollis and Gould, Physicians to the Training School, for their services to them during illness.

Per capita per diem cost of ward patients. 1 98

Owing to a lower cost of coal, meat, and several other food supplies, and to the fact that fewer repairs generally were required on the building, the house expenses have been \$5,742.19 less than they were last year. The per capita cost for ward patients has been ten cents less per day. The closer supervision that we have been able to maintain through the appointment of an Assistant Housekeeper and a Supervisor of the nurses' dining room has prevented waste, effecting an economy in food and other supplies which has much more than paid the additional salaries of these appointees and has provided a more satisfactory service.

In November, 1903, the Reverend H. Newman Lawrence became Assistant to the Superintendent, which office he has filled with zeal and fidelity.

I beg to again bring to your attention the increasing demands upon our male surgical ward and the necessity of opening another ward as soon as the finances of the Hospital will permit.

The Isabella Heimath has kindly continued to receive from us convalescent patients and by so doing has often relieved the congestion of the Hospital and enabled us to admit other patients acutely ill, whom otherwise we would have been obliged to decline.

We are also under obligation to the Country Home for Convalescent Children at Sea Cliff for taking several of our little ones during the summer.

GEORGE F. CLOVER,
Superintendent.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:

The pastoral statistics for the year are as follows:

Baptized.....	10	Holy Communion:	
Confirmed	11	In Chapel	39 times.
Marriages.....	3	In wards	75 times.
Funerals	51	In extremis	38 times.

The regular services have been:

Holy Communion. In the Chapel; on the first Sunday in each month at 10.30 A.M., and on the third Sunday in each month at 8 A.M. In the wards; every Sunday in one of the wards, and frequently in two of them. On Christmas and Easter, in the Chapel and in every ward.

Other Services. In the Chapel; on Sundays at 10.30 A.M. and 4 P.M., and daily at 6 P.M. In the wards; every week day between 8.30 and 9 A.M. in each ward.

During Lent an additional service was held in the Chapel on Fridays at 8 P.M., and a Bible Class was conducted in the Library on Thursday evenings.

The regular bed-side ministrations of the Assistant Pastor have been continued.

The Right Reverend the Bishop of New York visited the Hospital on December 12, 1903, and confirmed three persons. The Right Reverend the Coadjutor Bishop of New York visited the Hospital on the Feast of St. Michael and All Angels and confirmed eight persons.

The members of the Church Guild of Barnard College have received the Holy Communion in the Chapel of the

Hospital on the third Wednesday of each month of the college year.

The Kindergarten in the Children's Wards has been continued with most satisfactory results. The children take great interest in this work. Their lives are brightened thereby, and the influence upon their physical and mental condition is decidedly beneficial.

We gratefully acknowledge the kindness of the Choir of Holy Trinity Church in again singing Carols in the wards at Christmas and Easter, thus not only giving pleasure to the patients, but also directing their thoughts to the religious character of those holy seasons.

GEORGE F. CLOVER,
Pastor.

Incision and drain of perinephritic abscess.....	2
Nephrectomy for cystic kidney.....	3
for hypernephroma.....	1
for pyonephrosis.....	1
Nephrorrhaphy.....	9
Nephrotomy for calculus.....	1
	18

OPERATIONS ON RECTUM AND ANUS.

Allingham's operation for hemorrhoids.....	14
Clamp and cautery for hemorrhoids.....	24
Dilatation for fissure in ano.....	6
for stricture of rectum.....	2
Excision of papilloma of rectum.....	3
Fistula in ano.....	11
Ishio-rectal abscess.....	9
Kraske's operation.....	1
Mitchell's for hemorrhoids.....	5
Plastic for prolapse of rectum.....	1
Proctorrhaphy.....	4
Resection of rectum for carcinoma.....	6
of rectum and sigmoid for carcinoma.....	1
Whitehead's for hemorrhoids.....	5

ABDOMINAL OPERATIONS.

Coeliotomy, exploratory.....	11
Coeliotomy for acute appendicitis with abscess.....	10
for acute catarrhal appendicitis.....	31

ABDOMINAL OPERATIONS.—Continued.

Coeliotomy for acute gangrenous appendicitis	32
for acute perforative appendicitis	2
for acute suppurative appendicitis	35
for carcinoma of peritoneum	I
for chronic appendicitis	83
for duodenal ulcer	I
for general peritonitis	13
for intestinal obstruction	17
for pelvic abscess	5
for recurrent appendicitis	10
for secondary hemorrhage	I
for tubercular peritonitis	9
for tubercular retroperitoneal glands	3
Cholecystectomy	6
for gall stones	5
Cholecystotomy	7
Choledochotomy	2
Enterorrhaphy	3
Excision of gastric fistula	I
Gastrectomy	I
Gastro-entero-enterostomy	3
Gastrorrhaphy	I
Gastrotomy	I
Hæmorrhagic pancreatitis, incision and drainage	I
Incision and drainage for hæmatoma of abdominal wall	I
for persistent sinus	3
Inguinal colostomy	8
Jejunostomy	I
Resection of portion of small intestine	2
of pylorus	I
of sigmoid	I

OPERATIONS ON BONES AND JOINTS.

Arthrotomy for floating cartilage of knee	I
Arthrotomy and removal of dislocated meniscus of knee	I
Breaking up adhesions in knee and ankle	I
in elbow	I
in knee	I
Compressed fracture of skull, elevation of fragments and drainage	4
Craniotomy for bullet in brain	I
Curetting necrosis of maxilla	I
of femur	I
Excision of callus for ankylosis of elbow	I
of coccyx	I
of metatarsal bone	I
of osteoma of temporal bone	I
Incision and drain of Antrum of Highmore	3
Incision and drainage for arthritis of knee joint	2
for osteomyelitis of ankle	I
for osteomyelitis of femur	7
for osteomyelitis of tibia	I
for periostitis of tibia	I
for suppurative arthritis of knee	7
for suppurative arthritis of wrist	I
for tubercular arthritis of hip	3
for tubercular bursitis of thigh	I
for tubercular osteomyelitis of tibia and fibula	I

OPERATIONS ON BONES AND JOINTS.—Continued.

Incision for tubercular osteitis of 5th metatarsal bone.....	1
Lorenz operation for congenital dislocation of hip.....	5
Osteotomy for genu valgum.....	6
for genu varum.....	2
for hallux valgus.....	1
for tubercular osteitis of os calcis.....	1
for tubercular osteitis of tibia.....	1
and suture for vicious union of femur.....	1
Reduction of congenital dislocation of hip.....	1
Resection of ribs for abscess of lungs.....	1
of ribs for empyema.....	18
of head of humerus.....	1
Sequestrotomy of sternum.....	1
Straightening of nasal septum.....	1

85

OPERATIONS ON MALE GENITO-URINARY ORGANS.

Castration.....	1
Circumcision.....	16
Cystoscopy.....	9
Cystotomy (supra-pubic).....	3
Evacuation of vesical calculi.....	1
External and internal urethrotomy.....	13
Extraction of vesical calculus through recto-vesical fistula....	1
Henry's operation.....	1
Hydrocele, excision of sac.....	4
injection of carbolic acid.....	5
of cord.....	2
Incision and drainage of empyema of tunica vaginalis.....	1
Perineal section.....	2
Prostatectomy.....	2
Undescended testicle.....	4
Urinary fistula.....	1
Varicocele, excision of veins.....	14

86

OPERATIONS ON FEMALE GENITO-URINARY ORGANS.

Abdominal hysterectomy.....	46
Alexander's operation.....	10
Amputation of cervix.....	5
Anterior colporrhaphy.....	10
Cauterization of cervix for carcinoma.....	3
of urethral caruncle.....	1
Clamp and cautery operation for hypertrophied Labia Minor..	1
Curettage.....	163
Cystoscopy.....	3
Cystoscopy, with removal of catheter from bladder.....	1
Dilatation of cervix.....	1
Division of vaginal atresia.....	2
Drain of pelvic abscess.....	1
of vulvovaginal abscess.....	1
Excision of cervical polyp.....	1
of uterine polyp.....	1
of vulvovaginal cyst.....	3
Myomectomy.....	13
Myorrhaphy for punctured uterus.....	1

OPERATIONS OF FEMALE GENITO-URINARY ORGANS—Continued.

Oöphorectomy (abdominal).....	19
Perineorrhaphy.....	46
Plastic on ovary.....	10
on recto-vaginal fistula.....	1
on tubes.....	3
on urethro-vaginal fistula.....	2
Posterior colpotomy.....	15
Salpingectomy (single).....	24
(double).....	4
Salpingo-oöphorectomy (single).....	75
(double).....	49
Trachelorrhaphy.....	20
Uretero-vesical anastomosis.....	1
Vaginal drain of pyosalpinx.....	3
Vaginal hysterectomy.....	2
Vaginal salpingo-oöphorectomy.....	3
Ventral fixation.....	36
Ventral suspension.....	34

OPERATIONS ON TUMORS.

Excision of carcinoma of bladder.....	1
of carcinoma of cheek.....	1
of carcinoma of larynx.....	1
of carcinoma of neck.....	1
of carcinomatous glands of the neck.....	2
of cystic goitre.....	5
of epithelioma of fauces.....	1
of epithelioma of leg.....	1
of epithelioma of lip.....	1
of epithelioma of tongue.....	3
of lipoma of back.....	4
of lipoma of shoulder.....	2
of lipoma of side.....	1
of sacral cyst.....	1
of sarcoma of neck.....	1
of sarcoma of poplital space.....	2
of simple goitre.....	1
of tumor of leg.....	2
of tumor of parotid.....	1
Implantation of radium in thyroid for exophthalmic goitre.....	1
Incision and drainage of cyst of the pancreas.....	1
Incision and drainage of ranula.....	1
Multiple transfixation of angioma of the face.....	3

38

OPERATIONS ON BREASTS.

Amputation for cyst adenoma.....	10
Complete amputation for carcinoma.....	31
Excision of fibroma.....	3
of recurrent carcinoma.....	2
of tuberculosis of breast.....	1
Incision and drainage for persistant sinus.....	1
for chronic mastitis.....	2

50

MISCELLANEOUS OPERATIONS.

Angnew's operation for salivary fistula.....	1
Division of muscles for congenital torticollis.....	1
Drainage of mastoid cells (Schwartz operation).....	5
Enucleation of eyeball.....	1
Examination under ether.....	4
Excision of Adenoids.....	7
of carbuncle of neck.....	4
of prepatellar bursa.....	1
of suppurative glands of groin.....	7
of suppurative glands of axilla.....	1
of suppurative glands of neck.....	3
of tubercular glands of groin.....	2
of tubercular glands of neck.....	28
for submaxillary adenitis.....	1
for varicose veins of legs.....	15
Incision and drainage of abscess.....	18
of abscess of brain.....	1
for cellulitis.....	19
Ligation of external carotid artery.....	3
of internal carotid artery.....	1
of inferior thyroid artery for goitre.....	2
of superior thyroid artery for goitre.....	1

ST. LUKE'S HOSPITAL, NEW YORK. (REAR VIEW)

PROSPECTUS OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person, or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the training School.

Candidates must be from twenty-three to thirty-three years of age. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact. They must also give the names and addresses of two persons not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. The reasons for rejection are not given either to applicants for admission or probationers on duty, neither are letters addressed, personally, to the authorities of the Hospital returned.

Candidates for admission are not received in classes, but individually as the work of the Hospital requires. Classes are formed at the convenience of the school.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Accepted candidates, while awaiting a call, should prepare

themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is "Kimber's Anatomy and Physiology for Nurses."

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. Twenty-four pieces are allowed for the laundry each week.

Each probationer, who passes through two months of trial, will be admitted to the school and will then be required to sign a written agreement to remain in the school for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of nurses for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

Nurses after they are admitted to the school, are required to wear the training School uniform while on duty. In addition to board, lodging, and laundry each nurse is provided with uniforms and text-books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms belong to the school, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7.30 P.M., for day staff; 7.30 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 2 to 7.30 P.M. Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty or for care of private patients in the Hospital, as may be necessary.

Three weeks' vacation is allowed each year. Pupils will

not be allowed during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the school, but may enter the following class, unless such absence exceeds four months, when she will, ipso facto, cease to be a member of the school. If readmitted, she must begin her course anew provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the school are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the school for reasons which to the Hospital may seem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications *from out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part, must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3 to \$6 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as

are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other venders are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor or Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M. Ushers will be in attendance to show visitors over the building.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

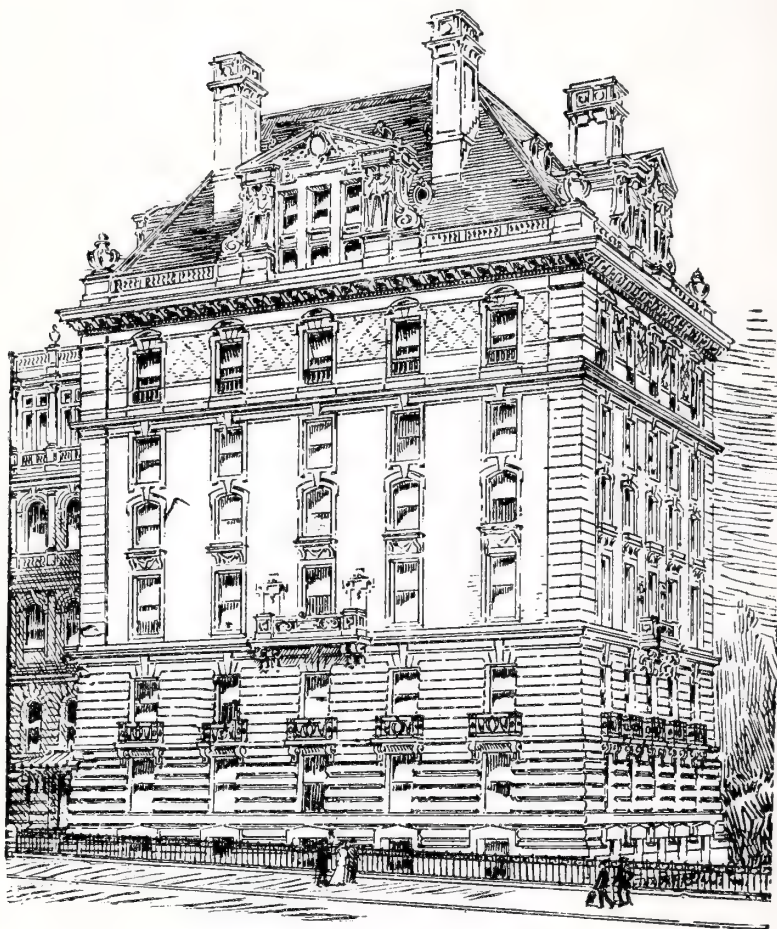

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

MRS. SAMUEL SPALDING.

THE FORTY-SEVENTH ANNUAL REPORT
OF THE
BOARD OF MANAGERS
OF
ST. LUKE'S HOSPITAL,
FOR
THE YEAR ENDING SEPTEMBER 30TH, 1905.

In presenting this, our Forty-seventh Annual Report, to the public, it seems fitting that we should speak with some emphasis on the present state of the Hospital service and of its classification.

Patients are classified as free, part pay, and full pay.

Free patients are those who pay nothing towards their care and maintenance. They are beneficiaries of endowed or annually supported beds, received on the recommendation of owners of beds, of physicians, clergymen, Parish Visitors, and upon personal application to the Hospital, when the Hospital is satisfied that they are unable to pay.

Part Pay patients are those who are unable to meet the expenses of a Private Room, but yet who can pay something towards their care. No ward patient is a full pay patient. The maximum amount received from any ward patient is \$10.50 per week, an average of 25 per cent. less than the cost of the patient's support; the minimum is any fraction of this amount that the patient may be able to pay.

Full Pay patients are those who, occupying private rooms, pay according to the size of the room they occupy, amounts varying from approximately sufficient to cover the cost of their maintenance and care to amounts beyond this cost. Any profit accruing to the Hospital from such patients is applied to the increase of the Fund used for the care of free patients in the Hospital. Full pay patients also

pay a fee to the physician or surgeon attending them, except in cases where such fee is waived because of the inability of the patient to pay it; but in no case does the Hospital pay such fee.

All applicants for admission are examined by a physician of the Hospital Staff, but exception is made to this rule when the diagnosis is furnished by a physician well known to the Hospital authorities. In cases where the applicant cannot come to the Hospital for an examination a physician is sent to his residence for that purpose.

For the year just ended, 73.9 per cent. of the work, as measured by Hospital days, has been free.

Never in the history of the Hospital has a patient been refused admission because of his inability to pay. Sometimes, however, to our profound regret, we are obliged to decline admission to patients for want of a vacant bed, and it is this fact that causes our earnest appeal, from time to time, for increase in our income, which would enable us to open additional wards for the use of free patients.

None of the wards are designated as "Free Wards" or "Pay Wards." Patients who pay nothing, and those who pay something are placed in the same wards; and the same treatment, the best we are able to give, is accorded to each alike. To all these patients the physicians and surgeons give their services without remuneration.

The Private Room Service should not only pay for itself, but should be an income producer for the maintenance in the wards of patients unable to pay.

The Charity work of the Hospital has been, is, and always will be the prime consideration of the Board of Managers and of the House Officers.

It is self-evident, however, that persons who can afford to pay for privacy, special nursing, and other privileges attached to private rooms, especially those whose homes are not in New York, should have a place provided for them. Can any place be more suitable than a Department operated in connection with a well-equipped General Hospital? And it also requires no argument to prove that if a Hospital can take care of patients able to pay for comforts commensurate with those they enjoy in health, and by this means earn something towards meeting the deficit which annually confronts it, from its efforts to give treatment to the largest possible number of patients who can pay nothing for their care, there is a beneficence to both classes of patients. The

well-to-do is helped and pays for it, while the poor man receives the benefit of any earning power this Department may have.

Through the generous and magnificent gift of Mrs. Margaret J. Plant, a separate Pavilion for private patients is now being erected. In this Pavilion a much larger number of patients can be cared for than is now possible; the Nurses' Home now, in large part, given over to the care of these patients, will be released to its much needed legitimate use, and the income of the Hospital, applicable to free work, will, it is confidently expected, be largely increased, thereby enabling the Managers to open some of the wards, which from lack of income, it is not now possible to use.

It was thought that the Margaret J. Plant Pavilion would be ready for occupancy this Autumn, but by reason of strikes, and other obstacles, the opening of this Pavilion will have to be postponed until some time in the early part of the next Calendar Year.

The difference this year between the receipts and expenditures has been \$25,697.36.

Notwithstanding the death of several of the old friends of St. Luke's, whose names were on the Roll of the Century Fund, the number of subscribers to this Fund for 1905 is nine ninety-four as against eighty-three for 1904; and it certainly should not be difficult to bring this Fund in the next year beyond the full 100, which the name indicates, and the Management earnestly appeals to the friends of St. Luke's to bring the number of subscribers to 200.

St. Luke's was founded on faith, a faith that has never been found wanting.

The gifts and legacies received during the year were as follows:

Additional payment on account of legacy of James D. Sarven.....	\$ 199 30
Contribution from Moses Taylor Pyne towards meeting deficit of 1904.....	1,000 00

During the year a Clinic for the treatment of diseases of the nose and ear was established in the Out Patient Department, with Dr. E. B. Dench as Surgeon-in-Chief and Dr. F. T. Hopkins as Assistant.

On October 18th, 1904, the resignation of Dr. Beverley Robinson, Attending Physician since 1879, was accepted. The President wrote Dr. Robinson on behalf of the Board of Managers, expressing very great regret over the resignation, and saying also, in part, as follows: "Your long connection with the Hospital and indefatigable efficient service has not only been of incalculable benefit to the patients under your charge, but has done as much, more perhaps than has been done by any other physician, toward establishing and maintaining the fame of St. Luke's for its medical work.

In addition to this, you have I know been unceasing in your endeavor to secure friends and friendly feeling for the institution, and I myself have particularly valued the interest you have taken in the development of the Pathological Work."

On November 28th, Dr. Robinson, was appointed consulting Physician to the Hospital.

Other changes in the staff have been the appointments of Dr. P. V. K. Johnson, Assistant in Gynecology; Dr. H. E. Plummer, Assistant in Surgery; Dr. W. Tillinghast Bull, Assistant in Medicine; and Dr. Emil Traub, Assistant in Medicine to the Out Patient Department.

On January 30th, Dr. W. S. Thomas was appointed Examining Physician to the Hospital.

On March 27th, Dr. Albert A. Davis' resignation as At-

tending Physician was accepted, and on the same date Dr. Davis was appointed Consulting Physician, and Dr. Theodore C. Janeway Attending Physician to the Hospital.

We record with deep sorrow the death of Dr. Albert A. Davis, connected with the Hospital since 1863. He served St. Luke's with great fidelity and marked ability in the varied positions of Resident Physician and Surgeon, Examining Physician, Attending Physician, and though appointed Consulting Physician, his failing health and early subsequent decease prevented the fulfillment of the duties of that office.

By order of the Board of Managers.

President.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 31. The relation of the receipts to the expenditures is found in the Treasurers' Report, page 17.

The number of subscribers last year was 93.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least five hundred thousand dollars

TO THE

General Endowment Fund

Four wards stand vacant because there is not money to open them.

Three hundred and sixty patients were refused admission last year because of insufficient revenue.

Eighteen thousand dollars (\$18,000 00) will support a ward for one year, giving 9,125 days of hospital treatment.

It is especially urged that an additional male surgical ward be opened.

Your Help is Earnestly Solicited.

For benefactions needed, see next page.

For endowment of beds, see page 57.

For Century Fund, see page 19.

A Large Benefaction
Is Also Needed

The several changes proposed in our Report of last year have been inaugurated and successfully maintained. Two Supervisors, one on the Medical, and one on the Surgical Division, constantly visiting the wards, giving practical instruction, have added to the efficiency of the service and thoroughness of the work.

The reception of probationers in classes, and the lengthening of the probationary term from two to six months, together with a more extensive course of instruction before admission to the School, have resulted in good. By these means the Directresses have a greater opportunity of judging the fitness of the probationer for her student course and the probationer herself has a better view of the work and its requirements, and can the more thoroughly decide whether she is prepared to fulfil the duties of three years in the Training School.

The value of the Curriculum has been further enhanced by the appointment of two physicians to give a course of ten lessons each in Surgery and Medicine to the Senior Class.

The first year of change to the non-payment system has successfully passed. Instead of the usual allowance of ten dollars per month to the pupil nurses, uniforms, text books, and other incidentals have been furnished and greater educational advantages have been provided.

The Graduating Exercises were held on the evening of April 24th, with appropriate religious services. The President of the Hospital presented diplomas to twenty-three nurses, and the Right Rev. Bishop Greer addressed the Graduating Class.

With deep sorrow we record the loss through death, of Miss Janet Caswell, a member of the School. While away from the Hospital, taking her course in obstetrical nursing, she contracted scarlet fever, surviving but a few days. Miss Caswell had done excellent work in the School. Her enthusiasm for her profession and her personality gave rare promise for a life of rich usefulness.

We also report with sorrow the death, at the Hospital as a patient, of Mrs. Nanon Copeman, Class of 1904. By character and disposition she was well fitted to be a comfort to her patients, and had she lived, would have been more than a professional nurse in the houses of illness to which she would have gone.

Our gratitude and appreciation are due the members of

the Medical Board for lectures delivered; the House Staff for instructions given; Drs. Hollis and Gould for their professional care of pupils during illness; and to Dr. Freeborn for a special course of instruction to the Nurses on Bacteriology.

The foregoing statistics show conditions somewhat changed from those reported last year. The number of private patients treated have increased to a very considerable degree, while ward patients, paying something towards their maintenance have decreased. The proportion of free work is larger than last year. Requisite repairs to buildings and plant have been greater than usual. The per capita cost for ward patients, while seven cents more than last year, is three cents less than two years ago. In food supplies meats have cost somewhat less, but other edibles have, for the most part, been more expensive.

The demands upon the Male Surgical ward have increased during the year. The ward is generally overcrowded and there is practically always a large list of patients awaiting a vacancy. A greater number of beds for this class of patients is urgently needed.

Our obligation continues to the Isabella Heimath for receiving our convalescent patients of both sexes. And we are also indebted to St. Andrew's Home for taking women and to the Convalescent Home at Sea Cliff, and the Sea Breeze Home for caring for some of the children from our wards during the Summer months.

GEORGE F. CLOVER,
Superintendent.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:

The Pastoral Statistics for the year are as follows:

Baptized.....	7	Holy Communion:	
Confirmed.....	3	In Chapel.....	37 times.
Marriages.....	5	In Wards.....	77 times.
Funerals.....	63	In private and In ex-	
		tremis.....	114 times.

The usual order of services has been continued as follows:

Holy Communion. In the Chapel: on the first Sunday in each month at 10.30 A. M., and on the third Sunday in each month at 8 A. M. In the wards: every Sunday in one, and frequently in two. On Christmas and Easter, in the Chapel and in every ward.

Other Services. In the Chapel, on Sundays at 10.30 A. M., and 4 P. M., and daily at 6 P. M. In the wards: every week-day between 8.30 and 9 A. M., in each ward.

During Lent a Bible Class was conducted in the Library on Thursday evenings.

The regular bed-side ministrations of the Assistant Pastor have been continued.

The Right Reverend the Coadjutor Bishop of New York visited the Hospital on September 27th, and confirmed three persons.

A Service of praise and thanksgiving for mercies shown during the past year to the patients of St. Luke's Hospital was held on the Sunday after St. Luke's Day (October 23). A large number of former patients and their friends filled the Chapel to overflowing and joined heartily in the Service. It is proposed to make this service of Thanksgiving an Annual Service.

The following is

The Kindergarten in the Children's Wards continues to brighten and cheer the little patients. Many have learned to make things useful and ornamental with their hands some have learned to read and write; while all take delight in singing the songs which they are taught.

We again express our gratitude to the Choir of Holy Trinity Church for singing carols in the wards at Christmas and Easter, in accordance with their kind custom for several years past.

Madame Berger visited the wards several times during the winter months and played pleasing music on the zither.

GEORGE F. CLOVER,

Pastor.

PROSPECTUS OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person, or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the training School.

Candidates must be from twenty-three to thirty-three years of age. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact. They must also give the names and addresses of two persons not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. The reasons for rejection are not given either to applicants for admission or probationers on duty, neither are letters addressed, personally, to the authorities of the Hospital returned.

Candidates for admission are not received in classes, but individually as the work of the Hospital requires. Classes are formed at the convenience of the school.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Accepted candidates, while awaiting a call, should prepare

themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is "Kimber's Anatomy and Physiology for Nurses."

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. Twenty-four pieces are allowed for the laundry each week.

Each probationer, who passes through two months of trial, will be admitted to the school and will then be required to sign a written agreement to remain in the school for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of nurses for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

Nurses after they are admitted to the school, are required to wear the training School uniform while on duty. In addition to board, lodging, and laundry each nurse is provided with uniforms and text-books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms belong to the school, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7.30 P.M., for day staff; 7.30 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 2 to 7.30 P.M. Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty or for care of private patients in the Hospital, as may be necessary.

Three weeks' vacation is allowed each year. Pupils will

not be allowed during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the school, but may enter the following class, unless such absence exceeds four months, when she will, ipso facto, cease to be a member of the school. If readmitted, she must begin her course anew provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the school are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the school for reasons which to the Hospital may seem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications *from out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part, must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3 to \$6 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as

are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other venders are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor or Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

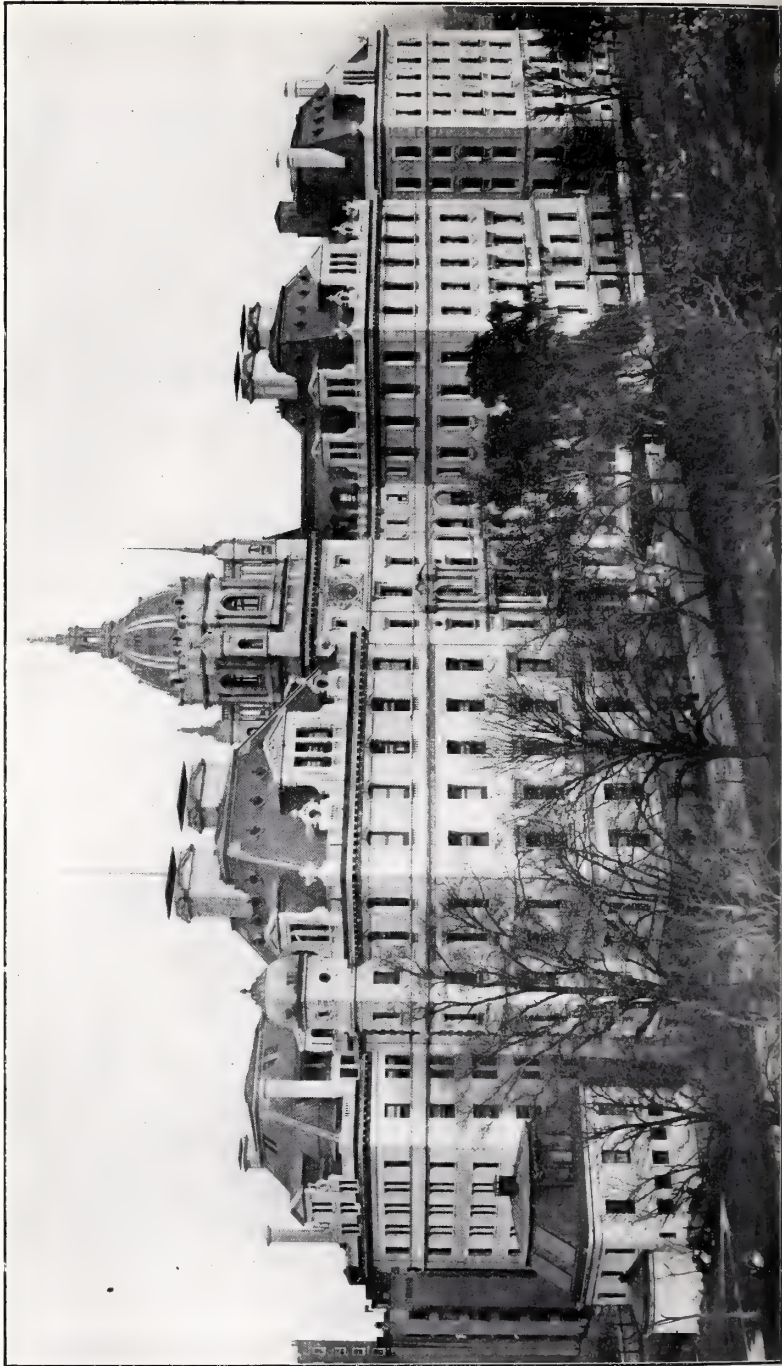

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

Forty-eighth Annual Report of The Board of Managers of St. Luke's Hospital

For the year ending September 30, 1906.

The site of St. Luke's Hospital, being the block bounded by 113th and 114th Streets, Morningside Avenue and Amsterdam Avenue, purchased in the year 1892, has cost.....	\$530,000.00
The buildings on this site, with their furniture and equipment, have cost.....	\$2,208,031.38
Separately invested, and representing in full all amounts received for the endowment of beds and rooms, or to be specially held for any purpose, St. Luke's Hospital has.....	\$1,400,215.94
It has also securities and cash applicable, without restriction by the donors, to its corporate purposes amounting to.....	\$372,240.13
It has no debts beyond current monthly expenses	

These statements are made as information proper to be furnished to those who may have given to St. Luke's in the past, also that the public may be satisfied it is an institution likely to endure for the future, and to be relied upon for the perpetual performance of its obligations.

In previous Reports reference has been made to the effect that Four Wards could not be opened for patients, because of lack of income to cover the expense this would incur, and that inability to use these Wards led to overcrowding Wards already in commission.

Last Spring, however, the demand for the opening of another Ward became so intense that the management, trusting that a work so essential to meet the needs and growth of the City would find support in additional gifts from friends of the

Hospital and the public at large, opened an additional surgical Ward for male patients.

It is believed that the work of the Hospital throughout its career has been, as a rule, as economical as was consistent with the proper care of its patients, but during the last year carefully considered and special efforts, in which the Medical Board has co-operated, have been made and new methods adopted toward this end.

Following the suggestion of the Hospital Saturday and Sunday Association, and the Society for Improving the Condition of the Poor, four of the leading Hospitals of New York have worked toward the publication of their statistics and financial accounts in a uniform manner, and an association of representatives of the Hospitals is planned for a periodical comparison of the cost and use of food and other supplies, so that each Hospital may profit by the experience of the other.

Referring to this organization for a uniform system of accounts, and for learning and comparing the cost of supplies, in an article lately contributed by him to "Charities," which the management is glad to avail of for insertion in this report, the Honorable Seth Low says:

"Personally, I believe that every community may be relied upon to support generously every hospital that is needed, provided it has the confidence that the hospital management is both intelligent and economical in the true sense of the word; that is to say, that it seeks efficiency without waste, even though the greater efficiency be costly. I am very sure that nothing will contribute so much to the development and maintenance of such a feeling on the part of the public as the knowledge that the management of every hospital itself knows in detail exactly what everything costs, and that it is checking its own work by the results obtained by others under conditions more or less similar."

The gifts and legacies received during the year were as follows:—

Additional payment on account of legacy of James D. Sarven.....		\$1,079.00
Legacy of George B. Bouton, M. D.....		5,000.00
Legacy of Herbert Valentine.....		1,000.00
Bed endowed by legacy of Johanna M. Williams in memory of Frances Theresa Williams, wife of Edward T. Williams, son of Johanna M. Williams, deceased, (\$5,000, less \$250.00 transfer tax).....		4,750.00

Bed endowed by Mrs. Frances M. Blagden in memory of her husband, George Blagden.....	\$7,500.00
Bed endowed by Norman I. Rees in memory of his father and mother, Hans Rees and Lucinda Krom Rees.....	7,500.00
Bed endowed by Mrs. Ina Campbell, in memory of her husband, John Campbell, to be known as "The John Campbell Bed".....	7,500.00
Bed endowed by Dr. Charles G. Miller, in memory of his brother, Dr. Guy Bryan Miller....	7,500.00
Bed endowed in Children's Ward by Legacy of Jane Maria Mead (\$4,000.00 less \$24.14 transfer tax).....	3,975.86
Bed endowed by Miss Mary E. Schell, in memory of her parents, Edward and Jane Lamberson Schell.....	7,500.00
Bed endowed by Miss Maria L. Campbell, in memory of Thomas Masters Markoe, M. D....	7,500.00

In previous issues of our annual report grateful reference has been made to the munificent gift by Mrs. Margaret J. Plant of a pavilion for private patients, and last year the hope was expressed that occupation of this building might be had during the then coming winter. Labor difficulties, however, and other hindrances have deferred its completion, but the beauty and dignity of the building now at length completed, and its admirable fitness for the purpose for which it is intended, compensate in a measure for the disappointment caused by this delay.

The Benediction of the Margaret J. Plant Pavilion by the Bishop of the Diocese, and its formal reception by the hospital is to take place on St. Luke's Day, October 18th, 1906, and shortly afterward it will be opened for the reception of patients.

There is every reason to believe that a substantial addition to the income of the hospital will result from the use of this pavilion, and the expectation of its generous donor that her gift will supply additional means for the care of the sick poor will thus be realized.

During the year Mr. Gordon Norrie, who has since 1882 (when he succeeded his father in office) filled with such efficiency and devotion the treasurership of the hospital, thought it necessary by reason of impaired health to insist upon the ac-

ceptance of his resignation. Under the circumstances, the Board accepted Mr. Norrie's resignation, but with the deepest regret because his relation to the hospital as its treasurer had contributed so much to its prosperity and the safe-keeping and investment of its funds.

The successor of Mr. Norrie is Mr. Henry D. Babcock, with the Union Trust Company of New York in charge of the securities and accounts as assistant treasurer.

On October 30th, 1905, the resignation of Dr. Charles Stedman Bull, who had been Consulting Ophthalmic Surgeon since 1888, was accepted with regret.

Major Theodore K. Gibbs, a manager for twelve years or more, owing to ill health and much to the regret of the Board, severed his connection November 27th, 1905.

In March, 1906, an Orthopedic Clinic in the Out Patient Department was established, with Dr. T. Halsted Myers as surgeon-in-chief and Dr. Deas Murphy as assistant.

Other changes in the medical department have been as follows:

On January 9th Dr. Everett W. Gould was appointed assistant to Dr. Spalding.

Dr. Karl M. Vogel was appointed assistant to Dr. Janeway.

Dr. Walter A. Bastedo was appointed assistant to Dr. Norrie.

On March 26th Dr. Hans Zinsser was appointed assistant in Pathology.

On April 30th Dr. Norman E. Ditman was appointed assistant to Dr. Hollis, and also assistant physician to the Out Patient Department: and

Dr. W. Tillinghast Bull resigned as assistant to the Out Patient Department.

On June 22nd Dr. Egbert Le Fevre resigned as attending physician to Phthisical patients.

On September 24th Dr. Edward G. Janeway and Dr. Francis Delafield were appointed consulting physicians to the hospital; and the resignation of Dr. P. V. K. Johnson, assistant in Gynecology to the Out Patient Department was accepted.

Another change we regret to record is the removal from earthly activity of George Atherton Spalding, M. D., resident

physician and surgeon in 1875 and 1876, and attending physician since 1896. He died October 2nd, 1906, and although the date falls not within the period covered by this report, we feel constrained to pause and place upon this record our keen sense of loss and deep appreciation of the personal and professional service rendered to the hospital by Dr. Spalding.

By order of the Board of Managers

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100.00 each toward supplying the difference between the annual expenses of the hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 25. The relation of the receipts to the expenditures is found in the Treasurers' Report, page 16.

The number of subscribers last year was 75.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least five hundred thousand dollars to the

General Endowment Fund

Three wards stand vacant because there is not money to open them.

Two hundred and forty-four patients were refused admission last year because of insufficient revenue.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

There have been no changes of moment either in the curriculum or in the practical work since the publication of our last report.

The special instruction embraced in ten lessons each in Surgery and Medicine to the Senior Class, as inaugurated last year, has proven of much practical benefit.

The Graduating Exercises were held in the Chapel of the Hospital on the evening of February 22d, the address being delivered by Dr. Abbe, and the diplomas were presented by the President of the Hospital.

We gratefully aknowledge the receipt of \$25. to be used for papers and periodicals.

Additional books are needed for the Nurses' Library, and gifts of books or money for the purchase of books would be greatly appreciated.

Our thanks are due to Dr. Freeborn for instruction in Bacteriology during the year; and to Drs. Gould and Hollis for their unremitting kidnness in caring professionally for pupils during illness.

Although House Expenses, as shown by the amounts remitted to the Superintendent by the Treasurer, are \$5,874.72 less than last year, the per capita expense of maintaining both private and ward patients has increased, as exhibited in the foregoing figures. This is due to two causes.

First, to the changes in reporting operating expenses and other statistics in order to conform to the plan adopted by several of the New York Hospitals, including our own. In this plan various large items, such as insurance, legal expenses connected with the operation of the Hospital, publication of the Annual Report, etc., which have heretofore been charged against the corporation expenses are now chargeable to house expenses.

Second, to the large and extraordinary expense of laying new flooring and installing additional laundry and other machinery amounting to, approximately, \$8,000.

Were it not for these causes our per capita expenses would be less for this year than for several years previous to this. One of these unusual expenses must continue until most of the floors are relaid, and we can hardly hope, therefore, in spite of the economies which have been put into operation, to show, for the next two or three years, any diminution in the per capita cost of the maintenance of patients.

The uniform method of presenting financial reports and statistics attempted this year will undoubtedly prove of value to the hospitals adopting them, and if comparisons are made between such hospitals, each can learn from the other much that will prove helpful. It is intended that our statistics will show in parallel columns comparisons between the current year and the previous year. Owing, however, to the fact that the change in the system was not begun until almost the end of the hospital year, it has not been found possible to show the comparison with last year. In the future the figures both as to patients and operating receipts and expenditures will show comparisons between the present and the previous year.

We are, as in the past, under great obligation to the Convalescent Homes, especially to the Isabella Heimath and St. Andrew's, for receiving patients who have been improved or cured of their maladies, but are unable to return immediately to their homes, or who are so unfortunate as to have no homes to which to go; and also to the Sea Cliff and Sea Breeze Homes for taking our children during the summer.

GEORGE F. CLOVER,
Superintendent.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:—

The pastoral statistics for the year fall into two main groups, those dealing purely with spiritual affairs, and those affecting the general welfare of the patients, under which latter division is classified the work of the library.

These are as follows:—

MINISTRATIONS.

Baptized	4	Holy Communion	
Confirmed	3	In chapel	32
Marriages	7	In wards	84 (721 communicants)
Funerals	55	In private and in extremis	97

LIBRARY.

Books distributed in wards	2,436
Books distributed to private patients	741
Books distributed to employees	391
Total number of books distributed	3,568

The usual order of services has been continued as follows:—Holy Communion, in the chapel, on the first Sunday in each month at 10:30 a. m.; on the third Sunday of the month at 8 a. m.; and on the greater festivals at 9 a. m. In the wards, every Sunday in two wards in regular rotation, save during the summer vacation season, thus giving each ward a celebration once a month. Other Services: in the chapel, on Sundays, morning prayer at 10:30 a. m., except on the first Sunday of the month, and evening prayer at 4 o'clock; daily evening prayer at 6 p. m.; in the wards, daily in every ward a short form of family prayer is said between 8.30 and 9.00 a. m.

The charity fund for the year has been administered as follows:

The Right Reverend the Bishop Coadjutor of New York visited the hospital on February 27th, 1906, and confirmed two persons. The Right Reverend the Bishop of South Dakota,

acting under the sanction of the Bishop of New York, administered the rite of confirmation on May 26th, 1906, to one person.

The regular bedside ministrations of the Assistant Pastor have been continued, and in this connection a thoroughly comprehensive set of records has been devised and is now in use.

A service of Praise and Thanksgiving for mercies shown during the past year was held on the Sunday after St. Luke's Day. A large number of former patients and their friends filled the chapel to overflowing.

Carols were sung in the wards at Christmas and Easter by the choir of Holy Trinity Church, and were highly appreciated by the patients. We thank the choir for adding this to their many previous kind visits.

Your attention is called to the work of the library. The wards are visited at least once a week by the librarian, every patient who is able to read being given abundant opportunity to receive books. This is most gratefully welcomed by the patients as the statistics heretofore appended will show. Patients have access to the library, and all requests made for books are filled without delay. A new system of cataloguing on the most modern and approved methods of library work is being installed and will be completed during the coming year. There is a great demand for good fiction of modern type and donations of novels, even though worn, are greatly welcome.

The kindergarten in the children's wards is of great value to the little patients, giving a winter pleasure as eagerly anticipated as the park carriage drives in summer.

Efficient help has been given by the visits of friends of the hospital, who have done much to carry out the spirit of the kindly and cheering atmosphere of St. Luke's. In this connection it gives much pleasure to record the valuable aid given by representatives of the Brotherhood of St. Andrew in providing employment and in other ways helping young men who have left the hospital as convalescents.

GEORGE F. CLOVER,
Pastor.

ENDOWMENT OF BEDS.

A bed in an adult's ward may be endowed by the payment of a sum not less than \$7,500.

A bed in a child's ward may be endowed by the payment of a sum not less than \$5,000.

The annual income of such endowment shall be applied to the cost of maintaining a patient upon the bed so endowed so far as such income will suffice to pay such cost; and the founder and a successor named by him shall have the right of nomination.

The annual charge for the support of an adult's bed is five hundred dollars, and for a child's bed three hundred dollars.

ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES

NEW YORK

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School.

Candidates must be from twenty-two to thirty-three years of age and hold a High School diploma, or the equivalent thereof. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact, also a letter of recommendation from a clergyman, and the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individuals character, neither does it prove her to be disqualified for admission to other Training Schools. *The reasons for rejection are not given either to applicants for admission or probationers on duty*, neither are letters addressed, personally, to the authorities of the Hospital returned.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Candidates, whose names are on the emergency list, must be ready to respond to a call within twenty-four hours after notification.

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done in the Hospital.

Each probationer, who passes through a probationary term not exceeding six months (this period being included in the three years' course), will be admitted to the School, and will then be required to sign a written agreement to remain in the School for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of probationers for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency.

Nurses after they are admitted to the School are required to wear the Training School uniform while on duty. In addition to board, lodging and laundry, each nurse is furnished with her uniform and text books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms and text books belong to the School, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 a.m. to 7 p.m. for day staff; 7 p.m. to 7 a.m. for night staff. Leisure hours; Two hours daily, one afternoon each week from 12:30 p.m.; Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Three weeks vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If re-admitted, she must begin her course anew; provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods.

Examinations by a Committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applications received in person daily (except Sunday) from 10 A. M. to 5 P. M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3.50 to \$12 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through their friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other venders are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except

in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

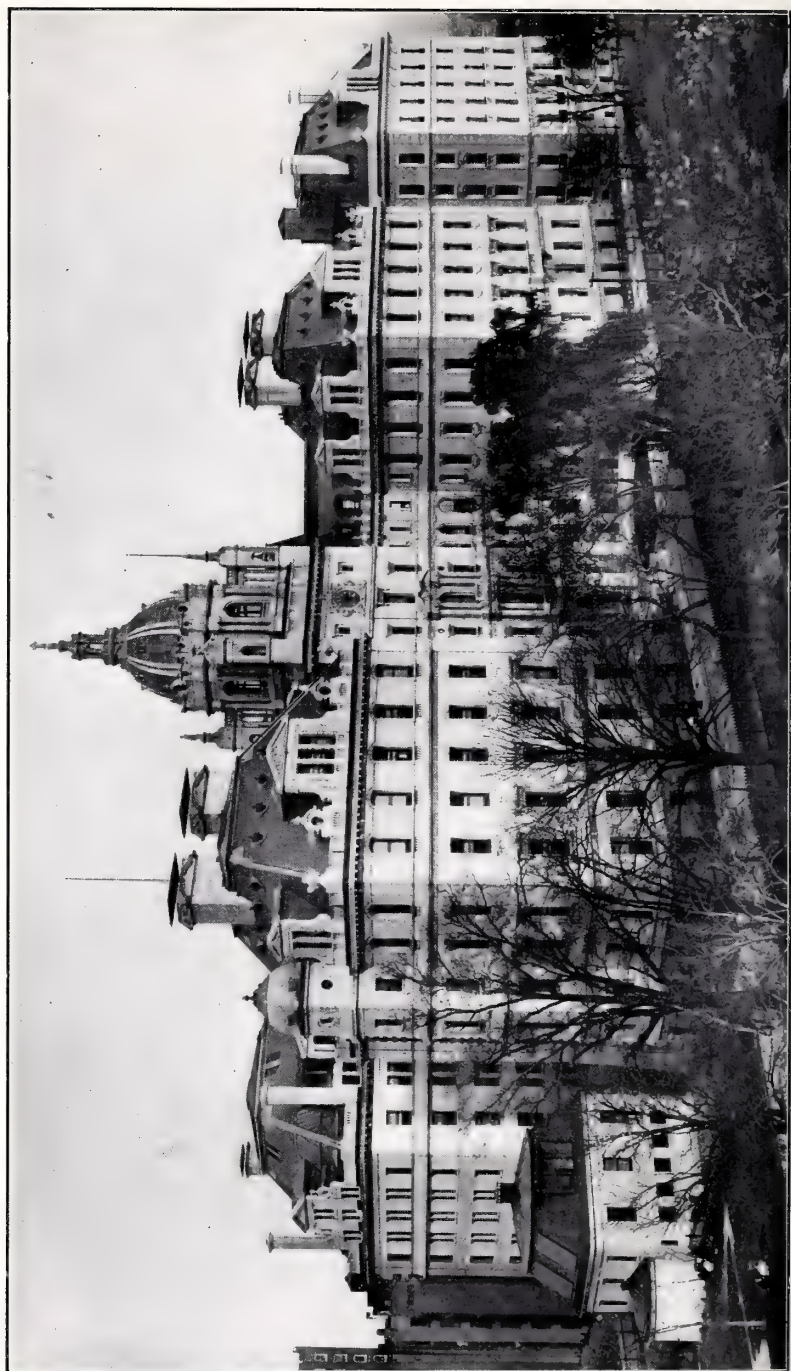

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

FORTY-NINTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL.

FOR THE YEAR ENDING SEPTEMBER 30, 1907.

The chief event of the year was the benediction and formal opening of the Margaret J. Plant Pavilion, which took place on St. Luke's Day, October eighteenth.

In the absence of the Bishop of the Diocese and the inability of the Bishop Coadjutor, because of a prior engagement, to remain beyond the preliminary service in the Chapel, the Right Reverend the Bishop of Nebraska said the Office of Benediction in the new building after those who had assembled in the Chapel went in procession to the Plant Pavilion. The formal reception of the building by the Board of Managers on behalf of the Hospital followed the Service of Benediction.

The opening of the Plant Pavilion for the reception of patients occurred on the 8th day of November, 1906, and from that time the number of private patients coming to be treated, and the satisfactory results of their treatment, have more than justified the benevolence and wisdom of the donor of this Pavilion in providing it for the comfort of those able to pay for its advantages, and as a source of revenue for the charitable work of the Hospital.

In appreciation of the munificent gift of this building the members of the Board requested of the donor permission to have her portrait painted. The permission being granted, the portrait was executed and now hangs in the main reception room of the Pavilion.

The Report now made shows the largest work done in the history of the Hospital as measured by the number of patients and the activity of the service; but the enlarged

work caused the expenses of the year to be greater than the income and, to supply the deficit, required the use of gifts applicable to the purpose.

It is greatly to be desired, however, that the income itself should meet the existing annual expenses, and besides this there should be supplied means to meet the urgent demand for the opening of two remaining wards, one for the Medical and one for the Surgical Service, which have not been opened thus far because of insufficient revenue.

Beyond the amount required for the full operation of the six pavilions now in use, there will be required means for the building of four other pavilions which the original plan of the whole Hospital called for, as shown on the ground plan printed in this Report. Of the future pavilions, one will have to be an additional home for nurses, and another a combined building for a dispensary and the housing of servants. The work of the dispensary has already outgrown the capacity of the portion of the Norrie Pavilion set aside for that purpose. These future buildings are desirable, but the pressing need is an endowment sufficient to operate to their full capacity those already erected.

The gifts and legacies received during the year were as follows:

Legacy of Henry I. Barbey.....	\$25,000 00
Legacy of James C. Woodward.....	36,690 49

CHANGES IN THE MEDICAL AND SURGICAL STAFF.

On November 26th, Dr. Samuel W. Lambert was appointed Attending Physician to the Hospital, and Dr. Charles E. Perkins was made Assistant in the Aural Clinic of the Dispensary.

On December 31st, Dr. Charles F. Collins was appointed Pediatric Attending Physician, Dr. Everett W. Gould Assistant Pediatric Attending Physician, and Dr. Frank S. Meara, Assistant Attending Physician to the Hospital.

On September 30th, Dr. Henry Christie Williamson was appointed Assistant in the Gynecological Division of the Dispensary.

DEATHS DURING THE YEAR.

The Hospital has sustained severe losses both on the Board of Managers and the Surgical Staff.

On October 20th, Mr. George A. Crocker, a devoted member of the Board since October 18th, 1875, and for years a member of the Executive Committee, departed this life.

On March 15th, Mr. John Noble Stearns, a manager since 1884, and for many years a member of the Auditing Committee, died.

Copies of the resolutions adopted by the Board upon the death of Mr. Crocker and Mr. Stearns are appended to this report.

Dr. George G. Wheelock, Attending Physician from January, 1878, to 1889, Consulting Physician from the latter date to the day of his death and for many years Vice-President of the Medical Board, died March 22d, 1907. Although Dr. Wheelock had not been in the active practice of medicine for a long period prior to his death, his interest in the Hospital continued to a degree quite as great as when he was in the active professional work of the Hospital. His knowledge of affairs connected with charitable institutions, his sound judgment, his sterling character and manly qualities made his counsel frequently sought and highly prized in the affairs of this institution.

A keen and irreparable loss in the active work of the Hospital has been sustained in the death of Dr. Francis H. Markoe, which occurred September 13th, 1907. He was appointed Attending Surgeon December 27th, 1889, and was unremitting in punctilious fulfilment of his conception of duty, which was of the highest order. As a brilliant operator endowed with conservative judgment he was an ideal surgeon, while his high character and direct manner made him deeply respected, and his kindness and sympathy endeared him to his associates in hospital work and also to his patients. We have placed on our minutes our very deep sense of bereavement in the deaths of Dr. Wheelock and Dr. Markoe.

THE SERVICE OF THE ATTENDING AND CONSULTING STAFF.

It is with great appreciation and gratitude that we acknowledge the services of the Attending and Consulting Medical and Surgical Staff of the Hospital, which have been rendered this year as hitherto without financial remuneration in the care of all ward patients.

By order of the Board of Managers.

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,
Secretary.

EXTRACT FROM MINUTES, BOARD OF MANAGERS,

OCTOBER 29, 1906.

The President made report of the death of Mr. George A. Crocker and upon motion, duly seconded, the following preamble and resolution were unanimously adopted:

"The death of Mr. George A. Crocker, first Vice-President of the corporation, having occurred October 20th, 1906, the Board of Managers of St. Luke's Hospital at their stated meeting held October 29th, 1906,

"RESOLVED, that the following be placed upon the minutes of this meeting and a copy of same, properly engrossed, be sent to the family of Mr. Crocker:

"Mr. George A. Crocker was elected a member of the Board of Managers of St. Luke's Hospital October 18th, 1875, a member of its Executive Committee October 30th, 1893, and one of its Vice-Presidents October 28th, 1902, and continued to hold all of these offices until his death, October 20th, 1906.

"Mr. Crocker, in every relation he held to the Hospital, was most earnest and assiduous in promoting its interests. He was constant in attending the meetings of the Board of Managers and of the Executive Committee, even after the condition of his health involved much effort and possible risk to him in doing so, while his good judgment, combined with his impartial attitude towards all questions brought under his consideration, made him a most valuable and helpful adviser.

"In addition to the respect won from his associates by his constant attention to the duties of the offices he held, Mr. Crocker's singularly cheerful and amiable manner, added to the example of his Christian life, made him to be greatly loved and honored by all his friends, and by none more than those he had among his associates in this Board."

EXTRACT FROM MINUTES, BOARD OF MANAGERS,

MARCH 25, 1907.

The following memorial was offered by the President, and was unanimously adopted:

"The Board of Managers of St. Luke's Hospital at their meeting held the 25th day of March, 1907, adopted the

following resolution relative to the death of Mr. John Noble Stearns, who died March 15th, 1907, having been a member of the Board since October 18th, 1884:

"RESOLVED, that this Board recognizes in the death of Mr. Stearns the loss of a member who throughout the period of his connection with the Board rendered St. Luke's Hospital frequent and valuable service. In the work of a committee or of the Board he was always to be relied upon, whether for his time, or his advice, or both; and his experience in business, his conservative judgment, his familiarity with the affairs of the city, coupled with his readiness to be of service to the institution, caused him to be frequently called upon in connection with those of its affairs requiring special and skilled attention. Further

"RESOLVED, that this Board begs to assure the family of Mr. Stearns of its sincere sympathy in their bereavement and sorrow. Further

"RESOLVED, that a copy of this resolution be engrossed and sent to Mr. Stearns's family."

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least five hundred thousand dollars to the

General Endowment Fund

Two wards stand vacant because there is not money to open them.

Three hundred and forty-four patients were refused admission last year because of insufficient revenue.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

Ethics of the Sick-room One lecture by DR. ROBERT ABBE.

The only change of moment—and one that is most welcome to the nurses—was the removal of private patients from the home, thus giving the nurses the freedom of the building for their hours of rest and recreation.

Throughout the year the health of the nurses has been exceptionally good. Illness among the pupils has been less than ever before, due in large part, no doubt, to the absence of the atmosphere of sickness in the home.

The demand for our graduates to become superintendents of hospitals, or superintendents of training schools, and for private work is far greater than we can supply.

During the year two of our graduates have gone to Manila to engage in missionary work under the jurisdiction of the Church, five have settled in Paris, France, and are unceasingly active in their ministrations to the sick, and one is working under the auspices of Trinity Lodge, Paris.

On the evening of April 22d the graduating exercises were held in the Chapel, the Rev. Dr. Lubeck delivering the

address, and the diplomas being presented by the President of the Hospital.

We acknowledge with profound thanks the gift of \$1000 from Mr. Charles S. Bartow towards the endowment of the private room for graduate nurses who may be ill. Our thanks are also due to the physicians and surgeons for their lectures to the Training School during the winter, and to Dr. Hollis and Dr. Gould for their care of pupils when ill.

METHOD USED IN COMPUTING THE PER CAPITA PER DIEM COST OF PRIVATE PATIENTS, DISPENSARY PATIENTS, AND WARD PATIENTS.

CHARGED TO PRIVATE PATIENTS.

All food supplies issued to the Private Patients' Pavilion by the Steward.
All ice delivered to Private Patients' Pavilion and a proportion of the expense of maintenance of refrigerating plant.

The medical and surgical supplies and surgical apparatus and instruments issued to the Pavilion.

The heating and lighting of Pavilion estimated on basis of its cubic contents.

GAS—All that is consumed in the Pavilion as shown by a separate meter.

LAUNDRY—Proportion estimated at 25% of total cost of operating laundry.

All general household supplies, such as kitchen implements, dry goods, bedding, silverware, soap, cleaning, etc., cost of total amount issued.

REPAIRS—All repairs made by house carpenter, house painter, engineer, or special contract for repairs are charged directly to the Pavilion at cost.

STATIONERY, PRINTING, ETC.—According to amount issued from general stock and the cost of special material purchased for sole use in the Pavilion.

SALARIES, of all persons employed exclusively in the Pavilion and a proportion of salaries of persons who give a portion of their time to the management or work of this Pavilion, such as the Superintendent, the Directress of Nurses, the Cashier, the Apothecary, the Steward, and engineers and firemen; such proportion is determined by the ratio of days of treatment in the Pavilion to the total number of hospital days of treatment.

Food supplies of all persons employed in the Private Patients' Pavilion but who take their meals elsewhere in the Hospital, at the per capita per diem cost of food supplies for the year.

N.B.—The cost of operating the Private Patients' Pavilion is readily computed in this institution, because it is an entirely separate department, with its own operating room, kitchen and storage rooms for food supplies.

CHARGED TO DISPENSARY PATIENTS.

Salaries and wages of all persons employed in this Department.

SUPPLIES—All that are purchased for the sole use of this Department. All supplies issued to this Department through the Housekeeper, Apothecary, and Steward.

LAUNDRY—Proportion estimated at \$250.

HEATING AND LIGHTING—Proportion estimated on the basis of cubic contents of the Dispensary.

CHARGED TO WARD PATIENTS.

All operating expenses not included in the cost of caring for private patients or dispensary patients.

The reasons for the increased daily average cost per patient this year become quite obvious upon examining the foregoing statistics. The chief cause is in the large amount of repair work done to the buildings, especially in the laying of several new floors and the making of extensive repairs to the roofs.

It will be noticed that the maintenance of real estate and building cost \$20,755.18 this year, as against \$6,190.42 last year. This item alone represents about 9 per cent. of the total operating expense of the Hospital.

The expense of fuel also is greater, not merely because the price of coal is increased, but the quality has decreased even more rapidly than the price has increased. Whereas in former years what is known as Buckwheat Coal No. 2 was of sufficiently good quality to serve our needs during the year, it is now necessary to use Buckwheat No. 1 for six months of the year at considerably larger cost per ton and with little, if any, additional heating power.

Other causes of a larger per capita cost are due to higher wages to employees and the constantly increasing price of nearly every article purchased for the treatment and care of patients and the maintenance of the institution.

The Isabella Heimath, the New York Convalescent Home, St. Andrew's Convalescent Home, and the Sea Cliff and Sea Breeze Homes have this year, as in years gone by, received our convalescent patients, for which I beg to make grateful acknowledgment.

GEORGE F. CLOVER,
Superintendent.

CHAPPEL

PASTOR'S REPORT

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:

The Pastoral Statistics for the year are as follows:

Baptized.....14	Holy Communion.
Confirmed..... 5	In Chapel.....39
Marriages..... 6	In Wards.....90 (1029 communicants)
Funerals.....50	In private and in extremis..179

The usual order of services has been continued:

Holy Communion, in the Chapel, on the first Sunday in each month at 10.30 A.M.; on the third Sunday in each month at 8.00 A.M.; and on the greater festivals at 8.00 A.M. In the wards: every Sunday in two wards in regular rotation, save during the summer vacation season, when there is but one ward Communion service. By this means each ward is given a celebration of Holy Communion once a month. Other services: In the Chapel, on Sundays, morning prayer with sermon at 10.30 A.M., and evening prayer with address at 4.00 P.M.; daily evening prayer through the week at 6.00 P.M.; in the wards, a short form of family prayer is said daily in each ward between the hours of 8.30 A.M. and 9.00 A.M.

A service of Praise and Thanksgiving for mercies shown during the past year was held on the Sunday after St. Luke's Day, and a large number of grateful patients filled the Chapel.

The choir of Holy Trinity Church continued its kindly rendering of carols in the wards during Christmastide and Eastertide.

A marked increase is shown this year in the number of those who have taken advantage of the spiritual privileges of the Hospital. With almost the same number of ward services, one-third more of the patients present desired to receive Holy Communion, and nearly twice as many private patients accepted the same privilege.

The regular bedside ministrations of the Assistant Pastor have been continued throughout the year.

In regard to matters relating to the general welfare of the patients, the output of the Library is worthy of attention. The statistics are as follows:

Books distributed in wards.....	4339
Books distributed to private patients.....	1498
Books distributed to officers and employees	378

Total number of books distributed.....6215

Total number of magazines distributed.....3741

This distribution has meant much to the patients during their convalescence. It has been found wise to retire a number of books from circulation as many, being but paper-covered when donated, had become so ragged that further repair was impossible. The need of books is great, especially for modern fiction and for scientific works, but any and all books of good character are eagerly welcomed. The new cataloguing system is almost complete and has proved entirely successful.

The kindergarten has done much to cheer the inmates of the children's wards, and the visits of the friends of the Hospital to these wards have always been most welcome to the little ones.

The charity fund for the year has been administered as follows:

CHARITY FUND.

ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School.

Candidates must be from twenty-two to thirty-three years of age and hold a High School diploma, or the equivalent thereof. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact, also a letter of recommendation from a clergyman, and the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. *The reasons for rejection are not given either to applicants for admission or probationers on duty*, neither are letters addressed, personally, to the authorities of the Hospital returned.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Candidates, whose names are on the emergency list, must be ready to respond to a call within twenty-four hours after notification.

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done in the Hospital.

Each probationer, who passes through a probationary term not exceeding six months (this period being included in the three years' course), will be admitted to the school, and will then be required to sign a written agreement to remain in the School for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of probationers for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency.

Nurses after they are admitted to the School are required to wear the Training School uniform while on duty. In addition to board, lodging and laundry, each nurse is furnished with her uniform and text books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms and text books belong to the School, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7 P.M. for day staff; 7 P.M. to 7 A.M. for night staff. Leisure hours; Two hours daily, one afternoon each week from 12:30 P.M.; Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Three weeks vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If re-admitted, she must begin her course anew; provided however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applications received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3.50 to \$12 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse or Servant is allowed to receive any fee or gift from a patient.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5 Patients are expressly forbidden to spit anywhere ex-

cept in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

FIFTIETH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL

FOR THE YEAR ENDING SEPTEMBER 30, 1908

The closing of this fiscal year marks a half-century and more of actual care of the sick by the Hospital. It was on Ascension Day, May 13, 1858, that patients were first received in the Hospital buildings at Fifth Avenue and Fifty-fourth Street. The origin of the institution, however, dates back to the Festival of St. Luke, 1846, when the revered founder, the Rev. Dr. William Augustus Muhlenberg, impressed with the neglect of the Church in making no provision for her sick poor, and appreciating the inadequate hospital accommodation in the city (for at that time Bellevue, New York, and St. Vincent's were the only hospitals in New York), addressed his congregation at the Church of the Holy Communion on the subject of a church hospital and informed them that, by their leave, he would appropriate a portion of their offerings on that day for the purpose. To this end \$30 was set aside. The object being kept in view, an offering was made for it on the annual return of the festival from which the proposed hospital derived its name.

For the first few years nothing more than a parochial organization was contemplated, but, the enterprise becoming known and meeting with much favor, it was determined by Dr. Muhlenberg to lay the project before the Episcopal Church of the city at large. The conception aroused general sympathy and plans were drawn for a building, a portion of which it was proposed to construct at once. The appeal met with a more generous response than was at first anticipated; whereupon it was determined to put forth additional effort and erect the entire building according to the plan. Thus it was that an institution conceived of in the

first instance to do a limited work only (that is, to provide for the care of Episcopalians) became at once catholic in its benefits without regard to religious or racial distinctions. While the burden of maintenance was for a time upon Episcopalians, it now receives support without reference to these distinctions, for many of the most munificent gifts of late have come from those not of our own communion.

The institution was incorporated in 1850, and the corner-stone laid by Bishop Wainwright in May, 1854. The Chapel, being finished first, was opened for divine service on Ascension Day, 1857, and for the year following services were regularly held there on Sundays. This was done, to quote the words of the founder, "for the purpose of declaring the Christian faith to be the ground and predominating element of the institution, and thus for a year St. Luke's appeared before the public as a church."

The care of the sick continued in the original building until 1896. For many years previous to that time it became more and more evident to the board that the edifice was inadequate to the needs of the institution and did not fulfil the requirements of modern medical and surgical science. Accordingly, on February 19, 1892, forty-five city lots were purchased, bounded by Morningside and Amsterdam Avenues, and 113th and 114th Streets. Plans for the erection of buildings on this site were perfected during the year 1892 and on May 6, 1893, the 39th anniversary of the same occasion at the old site, the corner-stone was laid by the right Rev. Henry C. Potter, D.D., Bishop of New York. Patients were transferred from the old to the new buildings on January 24, 1896, and since that date growth and progress have been the history of the Hospital.

The proceeds of the sale of the property at 54th Street and Fifth Avenue were not only sufficient to pay for the new site and meet the expense of construction of all the new buildings, with the exception of the Margaret J. Plant Pavilion, which is a recent gift, but also increased somewhat the endowment fund.

The present buildings provide for about three hundred bed patients, and the entire group, when completed, will accommodate, approximately, six hundred patients.

THE OPENING OF ADDITIONAL WARDS

For some years following the occupancy of the new buildings four wards were kept vacant because our income was

insufficient to support them. Of these wards, one was opened in the spring of 1906 for male surgical patients, and a few months since another ward was prepared for the reception of children. This leaves two wards still closed, but we hope through the generosity of the friends of St. Luke's to be able to open them in the near future. At the time of writing this report, and for some months past, the female wards, both medical and surgical, have been overcrowded to an extent necessitating the constant use of cots at night in the aisles of the wards. This we deeply deplore, but the urgent need of the sick applying to us for help constrains the management to meet the situation in a manner consistent with the greatest charity under the circumstances. The only other courses would be to deny care to the immediately needy applicants, oftentimes even after they have reached the Hospital, or face each year a larger difference between receipts and expenses than that which we are now meeting.

CONVALESCENT WORK

The great need of proper care for those recovering from acute illness and those suffering from diseases that might be classified as "semi-chronic," among whom are many who could, with some prolonged treatment and rest, be returned to useful lives and happy existence, has for a long time been a matter of serious consideration to the members of our board. An examination of the statistics, as exhibited in our reports for a number of years, will show that the length of stay of patients in St. Luke's is greater than in the average hospital. The true extent of the work is determined not alone in the number of patients treated, but also in the number of hospital days of treatment. It is better in our opinion to treat fully and restore to health one person than to half cure two. We have long wished that we might go much farther than we do and carry our patients entirely through the convalescent period, especially those who should be cared for through a long period of rest; such, for instance, as poor people suffering from nervous prostration following illness, who cannot afford to go to sanitariums and indeed who often cannot live without doing, or attempting to do, the work which they are not able to perform.

This need appealed with great force to the mind of a gentleman charitably and philanthropically disposed, and it was this that led to Mr. William Wheeler Smith's mu-

nificent bequest to the Hospital, the income of which is "to be applied by it to the care and relief of needy convalescent patients recovering from acute diseases and surgical operations and, from these or other causes, still requiring care and treatment not obtainable in their homes, without regard to their religious belief, or nationality, or sex." The income of this fund is not yet at our disposal, and it is probable that it will be some time before it is available. In the interim we are diligently studying the question as to the wisest and best methods of fulfilling the trust named in the bequest.

DISTRICT AND SOCIAL WORK

The value of district and social workers in connection with the out-patient departments of hospitals, among patients with scant means, who require some attention from the physician and the nurse, yet who do not need to enter a hospital, has been well demonstrated in Boston and in the service of two or three of the hospitals in New York. The presence of the competent, tactful nurse in the homes of the poor (where she is too rarely seen) means not only comfort to the patient, but often an educative and moralizing influence to the entire family—to show people how to care for themselves and their families in illness, how to arrange the sick-room and ventilate it, how to prepare articles of food, and do the many little things that should be done. These offices are within the province and the capacity of the proper sort of district nurse. When they are well done the result is invaluable and far-reaching.

Another sphere of great usefulness for the social worker is the placing of persons in institutions other than the one to which they may first apply. Often do people make application to the dispensary or the hospital and, because their cases do not come within the scope of the work performed by either, cannot be admitted. Among such persons are incurables, those who need places to rest, obstetrical cases, and many others. The social worker, whose duty it is to keep in touch with the various institutions of the city, knows where there are vacancies, and how and where to get the right person in the right place, and can do much to reach a happy solution of many perplexing questions. This kind of work we have had for some time in mind to do. It is proper work for a hospital, because people who require

help in this direction come to hospitals, and because this ground is not fully covered by any other agency. Our only reason for not doing it before is that we have not had the money to do it. It is work that we would like to undertake at once if the means were available. An endowment to meet the expenses of such work would be a great blessing to many.

FUTURE BUILDINGS

In our report last year mention was made of the fact that the plans for St. Luke's called for four more pavilions in the future. The great need, as then specified, is a pavilion to provide a larger and better equipped dispensary and quarters for servants. A bequest from Mrs. Mary Travers Heckscher (a portion of which has already been paid and the balance, it is expected, will soon be paid) stipulates that the money be used to provide a memorial to her parents, William R. and Maria L. Travers. It is purposed to erect this building at an early date, to be known as the Travers Pavilion, and plans are now being prepared to this end.

GIFTS AND LEGACIES.

The gifts and legacies received during the year were as follows:

Legacy of George C. Taylor.....	\$ 25,000 00
Legacy of James Henry Smith.....	100,000 00
Legacy of Betsy Head.....	13,150 97
Legacy of Mary Travers Heckscher.....	70,000 00

Additional payment on account of endowment of room for the alumnae of the Training School for Nurses.....	4,000 00

Additional instalment on account of Rockland County Bed	\$ 150 00
Bed endowed by Miss Lily Clarence Cram in memory of her sister, Ethel Latimer Cram.....	7,500 00
Bed endowed by Miss P. Caroline Swords in memory of Francis E. Doughty, M.D.....	7,500 00
Bed endowed by Mrs. Alice Townsend Wheelock and William Hawxhurst Wheelock in memory of George G. Wheelock, M.D	7,500 00
Gift of Mrs. Robert Graves to promote scientific medical work under the direction of the Medical Board.....	1,000 00
Gift of Mrs. Robert Graves, for the Margaret J. Plant Pavilion, four paintings by Cole illustrating "The Voyage of Life"	
Gift of Mrs. Samuel Lawrence, seven oil paintings, one mahogany bookcase, and one revolving bookrack.	
Gift of Mrs. Francis H. Markoe, anatomical plates.	

The gift of Miss Maria L. Campbell, \$20,000, for a roof ward was announced last year. Inasmuch as it was found to be impracticable to construct this ward, Miss Campbell generously provided that the money she had donated for the purpose be used to constitute a fund in memory of Dr. Francis H. Markoe, the interest of which be expended for the care, in private rooms, of physicians and surgeons unable to meet the expense of their stay in the Hospital.

CHANGES IN THE MEDICAL AND SURGICAL STAFF

On October 28, 1907, Dr. Charles Hendee Smith was appointed Assistant in the Medical Division of the Out-Patient Department of the Hospital.

On February 24, 1908, Dr. Joseph A. Blake was appointed Consulting Surgeon to the Hospital.

On May 25, 1908, Dr. Alfred Wiener was appointed Assistant Ophthalmologist to the Hospital; Dr. H. E. Gardiner was appointed Assistant in the Gynecological Division of the Out-Patient Department; and Dr. R. F. Longacre was appointed Assistant in the Surgical Division of the Out-Patient Department. —

THE SERVICE OF THE ATTENDING AND CONSULTING STAFF

We acknowledge with deep appreciation the services of the Medical and Surgical Staff, which have been rendered as heretofore without remuneration to ward patients.

By order of the Board of Managers.

CENTURY FUND

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100.00 each toward supplying the difference between the annual expenses of the Hospital and its income.

The work of the Hospital for the past year is found on pages 30-37. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 18.

The number of subscribers last year was 93.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least six hundred thousand dollars to the

General Endowment Fund

Two wards still remain vacant.

Two hundred and seventy-five patients were declined last year because of insufficient accommodation in the wards now open.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

A large benefaction is needed for the endowment of a District Nursing and Social Workers Fund, as described in the Managers Report, page 14.

Your Help is Earnestly Solicited

For endowment of beds, see page 54.
For Century Fund, see page 21.

There have been no changes of significance in the curriculum this year. The more practical side of the work has been given very close attention, with systematic training in housekeeping during the probationary term.

By special arrangement, nurses from the Sick Children's Hospital, Toronto, Canada, are being received for training in the nursing of adult patients. Two nurses come to us at a time, remaining for a period of three months.

On the evening of March 2d the President of the Hospital presented diplomas to twenty-three nurses, the address on this occasion being delivered by the Rev. Dr. Manning.

We desire to express our thanks to Dr. Hollis and Dr. Gould, Physicians to the Training School, for their prompt response to all calls for services and advice throughout the year.

The foregoing figures exhibit an increase of work in every department of the Hospital with the exception of the private patients pavilion. Over 71% of the work has been accorded to patients who paid nothing whatever towards their board. If the difference between the amount paid by patients towards the expense of their maintenance and the actual expense of maintaining them were considered, the percentage of free days would be much greater than 71. The proportion of free treatment this year has been greater than for many years past and the demand for beds, especially in the female wards, is larger than we can meet. It is most desirable that at least another ward be soon provided for the relief of this condition.

The house receipts, as compared with last year, have suffered a diminution of \$7,550. Of this amount, however, \$3,101 is in the item for special nursing for private patients. But as money collected for Special Nurses is at once paid to the nurses, there is a corresponding diminution in the expense account under the same item. It would be fair, therefore, to consider the decrease in house receipts this year to be \$4,449. The donations also from individuals to meet current expenses have been less than last year by \$2,000, and St. Luke's share of Hospital Saturday and Sunday collections shows a decrease of \$900. The increase of free patients and the decrease of house receipts and donations are due, it would seem, to one and the same thing, viz., the financial troubles of the year. Many patients in applying for ward treatment have remarked that in former years they could have remained in comfort at home and paid their doctor or, in coming here, could have taken a private room.

The officers and heads of departments have shown great zeal in their effort to aid me in administering the Hospital with the greatest economy consistent with a high standard

of service, and I take pleasure in telling you of their continued and successful effort, their loyalty to St. Luke's, and their fidelity to every trust committed to them.

We have received aid of very considerable value, especially in the hot weather, from the following institutions, which have kindly taken our convalescent patients, and to which we express our gratitude:

Sea Cliff Home for Babies, Long Island.

Campbell Cottage, White Plains, N. Y.

Maple Cottage, Peapack, N. J.

Isabella Heimath, New York City.

St. Andrew's Convalescent Hospital.

The New York Home for Convalescents.

St. Elizabeth's Home for Convalescent Women, Spring Valley, N. Y.

An expression of appreciation is due Mr. J. Henry Alexandre for a very charming day's outing on his yacht given to all the little folk of the Hospital who were able to be taken from the wards.

I beg, gentlemen of the Board of Managers, to thank you very earnestly for your continued support and favor, and for your generous expression of confidence in me.

Very respectfully,

GEORGE F. CLOVER,

Superintendent.

PASTOR'S REPORT

TO THE HONORABLE THE BOARD OF MANAGERS:

Gentlemen:

The Pastoral Statistics for the year are as follows:

Baptized.....13	Holy Communion.
Confirmed. 4	In Chapel.....31
Marriages..... 2	In Wards.....94 (1139 communicants)
Funerals.....71	In private and
	in extremis..171

The usual order of services has been continued:

Holy Communion, in the Chapel, on the first Sunday in each month at 10:30 A.M.; on the third Sunday in each month at 8:00 A.M.; and on the greater festivals at 8:00 A.M. In the wards: every Sunday in two wards in regular rotation, save during the summer vacation season, when there is but one ward Communion service. By this means each ward is given a celebration of Holy Communion once a month. Other services: In the Chapel, on Sundays, morning prayer with sermon (save on the first Sunday of the month) at 10:30 A.M., and evening prayer with short address at 4:00 P.M.; daily evening prayer through the week at 6:00 P.M.; in the wards, a short form of family prayer is said daily in each ward between the hours of 8:30 A.M. and 9:00 A.M. The Annual Service of Praise and Thanksgiving was held on Sunday after St. Luke's Day; in Christmas week and Easter week carols were sung in each ward, through the kindly rendered services of the choir of Holy Trinity Church; and every Sunday evening a short song-service is held in the wards set apart for the treatment of those less acutely ill, the Chapel soloist usually being present.

In addition to the regular bedside ministrations, the Assistant Pastor has visited at their homes many former hospital patients, and through the courtesy of several business firms, situations have been found, applicable to the needs of those yet unable to take up heavy or arduous work.

The Bishop twice during the year made a visitation to the hospital, confirming in the wards on the one occasion and in the Chapel on the other. Besides the four candidates presented, preparatory confirmation talks have been given to fifty-one patients whose stay was not of such duration

CHAPEL

as to make it advisable to ask the Bishop to make a special visitation. On the departure of these patients, their desire for confirmation has been referred to the rectors of their home parishes. In many other cases children have been brought to baptism in their parish church by similar methods.

The Library shows steady progress, both in number of volumes and in its usefulness to the patients, and each book donated adds materially to that value. A small special fund which could be directed to the purchasing of books frequently desired would be of inestimable benefit. The instalment of a simple catalogue of the 250 books reserved for private patients, and which was printed on the hospital press, has rendered these more available and it is hoped to enlarge the same at an early date. The statistics are as follows:

Books distributed in wards.....	3569
Books distributed to private patients.....	1654
Books distributed to officers and employees.....	753
Total number of books distributed.....	5976
Total number of magazines distributed.....	3675
Books donated during the year.....	267

Many patients have been cheered and helped by friends of the hospital, whose understanding of the needs and desires of the sick has made their regular visits one of the anticipated pleasures of the week. The Kindergarten, also, has done much to relieve the children of the tedium of indoor life through the winter.

The Pastor's Fund for the year has been administered as follows:

ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person or through the printed "form of application," to the Directress of Nurses:

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-two to thirty-three years of age and hold a high school diploma, or the equivalent thereof. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact, also a letter of recommendation from a clergyman, and the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. *The reasons for rejection are not given either to applicants for admission or probationers on duty*, neither are letters addressed, personally, to the authorities of the Hospital returned.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Candidates whose names are on the emergency list must be ready to respond to a call within twenty-four hours after notification.

Any change of plan, or of address, on the part of a candidate whose name is on the waiting list should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done in the Hospital.

Each probationer, who passes through a probationary term not exceeding six months (this period being included in the three years' course), will be admitted to the school, and will then be required to sign a written agreement to remain in the School for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of probationers for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency.

Nurses after they are admitted to the School are required to wear the Training School uniform while on duty. In addition to board, lodging and laundry, each nurse is furnished with her uniform and text-books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms and text-books belong to the school, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7 P.M. for day staff; 7 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 12:30 P.M.; Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Three weeks vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If readmitted, she must begin her course anew; provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

ADMISSION OF PATIENTS

DISEASES TREATED

All kinds of *acute, curable, and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING

Applications received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD

GENERAL WARDS,

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS

Single rooms from \$3.50 to \$12 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES

No Officer, Nurse, or Servant is allowed to receive any fee or gift from a patient.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

RULES FOR PATIENTS

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere ex-

cept in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

THE FIFTY-FIRST ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL

FOR THE YEAR ENDING SEPTEMBER 30, 1909

The work of the year shows an increase in each of the departments of the Hospital. The quality of the service performed has, we are convinced, been better than ever before. As compared with last year, the number of patients treated in the Hospital proper is greater by ninety-six. In days of treatment the excess is 2,226, while in the Out-Patient Department the increase of patients has been 1,591, which, together with the patients treated by the Visiting Nurse, namely 1,008, makes the number of patients treated in all departments 2,695 greater than last year. This marks the largest work performed during any one year in the history of the institution.

The greater part of the time the Hospital is crowded to the utmost capacity of the wards now open and, more often than otherwise, these wards are being filled beyond the number of beds allotted to them by the use of portable cots at night to meet the urgent demand for admission by patients whose ailments will not admit of delay. As stated in last year's report, there are still two wards unused, which for some time we have hoped to put in commission, but this action is delayed until the annual receipts from all sources shall approach more closely to annual expenses. The difference or deficit this year is \$8,975.38.

VISITING NURSING

At the earnest solicitation of the Association of Tuberculosis Clinics the care of the district from 86th Street to the

Harlem River, west of Eighth Avenue, was assumed by the Hospital, and a nurse, who was peculiarly well fitted for this kind of work, was placed in the field. It was but a few months until it was found that one nurse was insufficient to meet the growing demands of the district, and a second nurse was accordingly provided.

The fact that home nursing is of the greatest possible value in connection with the care of the sick poor of the city, both in its remedial and preventive aspect toward disease, is clearly recognized by our Board. This work should not be limited to tuberculosis patients. It should be extended to those suffering with general medical and surgical diseases. Many there are who might leave the hospital wards a few days earlier if a nurse could follow them to their homes for an hour or so each day, giving them the ministrations they require and aiding them in setting and keeping their households in order. The administration is constantly embarrassed by requests coming from friends of patients that they be retained a few days or a week beyond the period when the doctor considers them physically fit to be discharged, because they have no one at their homes to do for them the needful things. The embarrassment is realized in the conviction that to discharge them under the circumstances is possibly to undo all the good that has been done by hospital treatment; while, on the other hand, there are patients acutely ill waiting for the beds which should be vacated.

Another class of patients requiring periodical care by nurses are those of the dispensary or out-patient department. Cures that could be readily effected are often rendered impossible by the lack of proper home conditions, a defect that could in most cases be provided for through the daily visitation of the nurse.

This work should be enlarged. To do it requires an annual income of not less than \$5,000 and we earnestly ask for an endowment that will yield this amount.

CONVALESCENT WORK

Announcement was made last year that Mr. William Wheeler Smith had bequeathed to the Hospital a munificent legacy, the income of which is to be used for the care and relief of needy convalescent patients recovering from acute diseases and surgical operations, and from these and

other causes still requiring care and treatment not obtainable in their homes, without regard to religious belief, nationality, or sex. No money from this bequest has yet been paid to the Hospital, and, therefore, no definite plans have been matured for fulfilling the terms of the bequest.

Another gentleman, who desires that his name be not mentioned, impressed with the need of caring for convalescent patients discharged from the wards, gave to the Hospital during the year \$10,000 to be used as a nucleus for this purpose.

The provision of a place for convalescents directly under the control of the Hospital, where the treatment begun in it can be continued when necessary, will be not only of distinct benefit to the patient, but will enable the Hospital to do a more extensive work by having its beds more frequently available for the reception of those acutely ill.

NEW BUILDINGS

A bequest from Mrs. Mary Travers Heckscher to provide a memorial to her parents, William R. and Maria L. Travers, has been appropriated to the erection of another building, to be known as the "Travers Pavilion," on which satisfactory progress is being made, and it is expected that it will be completed the latter part of the next calendar year. This building will provide a commodious and well equipped dispensary, quarters for servants, and roof wards for fresh-air treatment of patients.

The bequest of Miss Zela Gibbes, approximately \$500,000, for pathological studies, together with the Guy Bryan Miller Fund of some years' standing, and the Emma D. Cummins Fund, lately received, gives to the Hospital means to prosecute research work in pathology and bacteriology that should be of the greatest value in connection with medical and surgical science, the cure of disease, and the relief of suffering. The additional work to be done under these foundations necessitates more commodious quarters and, therefore, the pathological laboratory is being remodelled and enlarged, and will in the future be known as the "Zela Gibbes Laboratory."

The general plan of the entire group of buildings includes three more pavilions, which will be erected as fast as money is provided for construction and maintenance.

DEATHS DURING THE YEAR

On October 24, 1908, Dr. A. Brayton Ball, Consulting Physician, died. Dr. Ball was Attending Physician from January 31, 1881, to November 1, 1897. In those years he rendered the Hospital service of signal value. He was a man of great dignity and kindliness, and yet withal a rare disciplinarian. His thoughtfulness of the patients' comfort, together with his requirements exacted from staff and nurses, made him the ideal hospital physician and teacher. Soon after the removal of the Hospital to its new buildings Dr. Ball felt himself unable to make his daily visit and was, upon his resignation as Attending Physician, appointed on the Consulting Staff, a member of which he was at the time of his death.

St. Luke's, together with many of the New York hospitals, realized a profound loss in the death of the eminent surgeon, William T. Bull, M.D. Much of Dr. Bull's early work was done in the wards and operating-room of St. Luke's, a work

which added much to the Hospital's scientific reputation. Appointed Attending Surgeon May 29, 1880, he continued in office, with the exception of a short time, until May, 1889. From the time of his resignation as Attending till his death February 22, 1909, he was Consulting Surgeon. Amidst an unusually occupied life, he always found time, without delay, for service and counsel in connection with the professional affairs of the Hospital when called upon. His skill and ability as a surgeon are so well and widely known as to render mention here superfluous. These, with his fine personal characteristics, made him the great man he was.

Benoni Lockwood, a member of the Board of Managers since May 27, 1878, and for many years its Secretary, a member of the Executive Committee and Secretary of that body, died April 27, 1909. His death was a loss to the Corporation and a personal loss to his associates on the Board. Appended to this report is a copy of the resolution unanimously adopted by the Board at its meeting, June 3, 1909.

CHANGES IN THE MEDICAL AND SURGICAL STAFF

On October 19, 1908, the position of Resident Pathologist of the Hospital was created and Dr. J. G. Hopkins was appointed thereto.

On November 30, 1908, Dr. Lefferts Hutton was appointed Assistant Attending Physician to the Hospital.

On December 28, 1908, Dr. Thomas J. Flynn was appointed Assistant in the Medical Division of the Out-Patient Department of the Hospital in place of Dr. Charles H. Smith, resigned.

On January 25, 1909, the Associate Attendings, Drs. Meara, Lyle, and Martin, were appointed members of the Medical Board.

On March 29, 1909, the resignation of Dr. Emery J. Thomas, Assistant in the Surgical Division of the Out-Patient Department of the Hospital, was accepted.

On June 3, 1909, Drs. Albert VanderVeer and Hemminway Merriman were appointed Assistants in the Medical Division of the Out-Patient Department of the Hospital.

CHANGES AMONG THE OFFICERS OF THE HOUSE

The resignation of Miss Mabel Wilson, Directress of

Nurses since June 15, 1902, was accepted by the Board June 3, 1909, with much regret. Miss Wilson was a graduate of our own Training School and conducted the nursing affairs of the Hospital with dignity and efficiency.

Mrs. C. E. Bath, Assistant Directress of Nurses throughout Miss Wilson's tenure of office and for some time longer, who had shown zeal in the second position and marked ability as a teacher, was promoted to the position of Directress of Nurses.

Mr. W. V. S. Happener, Cashier, having resigned to enter upon personal business, Miss Pauline Graf was appointed to the office of Cashier.

We acknowledge with great appreciation the services of the Attending and Consulting Physicians and Surgeons, rendered this year as heretofore to ward patients without financial remuneration.

By order of the Board of Managers.

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

EXTRACT FROM MINUTES, BOARD OF MANAGERS,
JUNE 3, 1909

RESOLVED, that in the death of Mr. Benoni Lockwood on April 27th last, this Board has been deprived of a member devoted to its interests, and to his associates his death is a personal loss and bereavement.

Mr. Lockwood became a member of this Board May 27, 1878, was elected its Secretary October 27, 1890, and continued as such until October 29, 1894, when he declined re-election. He was chosen Secretary of the Executive Committee October 29, 1900, and occupied this office until his death.

Through all these years and in all the positions he held he devoted himself faithfully and zealously to the interests of the Hospital with a loyal and conscientious regard for the traditions and purposes it represents; and this resolution is adopted as a just tribute to the value of his services to St. Luke's, and as a token of our affectionate regard for him as a friend and associate.

Further,

RESOLVED, that a copy of this resolution be sent to Mr. Lockwood's family.

OSCAR E. MORTON
CERTIFIED PUBLIC ACCOUNTANT
56 & 58 Pine Street
New York, Oct. 14, 1909.

I hereby certify that I have examined the books and accounts of Mr. H. D. Babcock, Treasurer of St. Luke's Hospital, for the fiscal year ending 30th September, 1909, as kept by the Union Trust Company, acting as Assistant Treasurer, and I find the same to be correct and to agree in all respects with the vouchers for expenditures.

I further certify that I have examined the list of securities of 30th September, 1909, and the same agrees with the audited list of 30th September, 1908, plus the additions and less the deductions, which have been properly accounted for.

All due interest has been credited to Interest Account, and there were no arrearages.

The annual statements bear my initial as evidence of my examination.

IN WITNESS WHEREOF, I set my hand in New York, the first date above written.

(Signed) OSCAR E. MORTON,
Auditor.

P. S.—A committee consisting of Messrs. Ward and Swords verified in my presence the securities, consisting of Mortgages, Stocks, and Bonds, and found them to agree with the schedule.

(Signed) OSCAR E. MORTON,
Auditor.

CENTURY FUND

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100.00 each toward supplying the difference between the annual expenses of the Hospital and its income.

The work of the Hospital for the past year is found on pages 32-38. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 20

The number of subscriptions last year was 76.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least two hundred and fifty thousand dollars to the

General Endowment Fund

Two wards still remain vacant.

Two hundred and sixty-two patients were declined last year because of insufficient accommodation in the wards now open.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

A large benefaction is needed for the endowment of a District Nursing and Social Workers Fund, as described in the Managers' Report, page 11.

The only change of importance during the year is that mentioned in detail in the Board of Managers' Report, namely the resignation of Miss Wilson as Directress of Nurses and the appointment to that office of Mrs. Bath, who had formerly been Assistant Directress of Nurses.

The policy of teaching has been to emphasize the practical side of the work rather than magnify theoretical instruction.

Thirty-five nurses were graduated on the evening of January 11, 1909, when a very excellent address was delivered by Dean Van Amringe of Columbia University, and of the Board of Managers of the Hospital. The diplomas were presented by the President.

It is with gratitude that we note the continued excellent physical condition of members of the Training School. Illness this year amounted to less than seven-tenths of one per cent.

We desire to express our thanks to the physicians and surgeons for the lectures delivered by them, as indicated in the foregoing list, and also to Dr. Hans Zinsser for theoretical and practical instruction in Bacteriology, and to Dr. Hollis and Dr. Gould, Physicians to the Training School, for their services and advice throughout the year.

The slight decrease in the daily average cost of patients, both private and ward, this year is due largely to the fact that less has been spent on repairs to the buildings than for several previous years, and also to the increase in the number of hospital days of both classes of patients. Every possible effort has been made by the heads of departments to administer the Hospital with proper economy and the efforts have not been without success.

The great need of another ward for female patients has been felt this year even more than before. The congestion at times brings problems hard to solve and makes conditions in which it is most difficult to render patients comfortable.

We are indebted this year, as in the past, to the following institutions which have kindly taken our convalescent patients:

Sea Cliff Home for Babies, Long Island.
Campbell Cottage, White Plains, N. Y.
Maple Cottage, Peapack, N. J.
Isabella Heimath, New York City.
St. Andrew's Convalescent Hospital.
The New York Home for Convalescents.
St. Elizabeth's Home for Convalescent Women, Spring Valley, N. Y.

Mr. J. H. Alexandre has on two occasions in the summer given outings on his yacht to the children from our wards. They were greatly enjoyed by the little ones and did them an immense amount of good.

Mrs. S. A. Clark has generously come to our aid in many of the problems that have confronted us in connection with the work of Visiting Nursing, in providing the Head Nurse with raiment for the poor and with funds to purchase nourishment and other needed articles. We take this opportunity of expressing our appreciation of her continued interest and kindness from the time this branch of the work was begun.

Very respectfully,

GEORGE F. CLOVER, *Superintendent.*

PASTOR'S REPORT

TO THE HONORABLE THE BOARD OF MANAGERS:
Gentlemen:

The Pastoral Statistics for the year are as follows:

Baptized.....12	Holy Communion.
Confirmed..... 3	In Chapel 31
Marriages..... 5	In Wards 90 (1,030 Communicants)
Funerals 61	In private and
	in extremis . . 138

The usual order of services has been continued:

Holy Communion, in the Chapel, on the first Sunday in each month at 10:30 A.M., on the third Sunday in each month at 8:00 A.M., and on the greater festivals at 8:00 A.M. In the wards: every Sunday in two wards in regular rotation, save during the summer vacation season, when there is only one Communion service in the wards. By this means each ward is given a celebration of Holy Communion once a month. Other services: In the Chapel, on Sundays, Morning Prayer with sermon (except on the first Sunday of the month) at 10:30 A.M., and Evening Prayer with short address at 4:00 P.M.; daily Evening Prayer through the week at 6:00 P.M.; in the wards, a short form of family prayer is said daily in each ward between the hours of 8:30 and 9:30 A.M. The Annual Service of Praise and Thanksgiving was held on the Sunday after St. Luke's Day; in Christmas week and Easter week carols were sung in each ward, through the kindly rendered services of the choir of Holy Trinity Church.

In addition to the regular bedside ministrations, and the occasional visiting of former patients at their homes, the Assistant Pastor has endeavored specially to help those whose limited knowledge of the English language, added to their weakened state, has made their position difficult. In this the clergy of certain city churches, notably L'Eglise du Saint Esprit, have extended many courtesies.

The Bishop of Olympia made a visitation to the hospital, acting for the Bishop of New York, confirming three patients, two wards being visited for the purpose. The correspondence entailed in the referring of patients to their home parishes, and also in assisting the ministers of sister churches

where religious work may be more fitly carried out in some individual case, has increased considerably this year.

The value of the Library is becoming increasingly apparent, and the occasional donations from friends of the hospital have done much to enlarge its scope. The most crying needs in this direction are for German and Italian books, and for books suitable for boys. The Library statistics are as follows:

Books distributed in wards.....	3,678
Books distributed to private patients.....	1,654
Books distributed to officers and employees.....	753
Total.....	6,085
Total No. of Magazines distributed.....	3,236
Books donated through the year.....	183

The Kindergarten work has continued this year in the usual manner, giving much pleasure to the children in the wards through the long winter confinement, when the tedium is hard to bear. The visits of many friends, often bringing small gifts to the little ones, also have afforded much delight.

The Pastor's Fund for the year has been administered as follows:

ENDOWMENT OF BEDS

A bed in an adult's ward may be endowed by the payment of a sum not less than \$7,500.

A bed in a child's ward may be endowed by the payment of a sum not less than \$5,000.

The annual income of such endowment shall be applied to the cost of maintaining a patient upon the bed endowed so far as such income will suffice to pay such cost; and the founder and a successor named by him shall have the right of nomination.

The annual charge for the support of an adult's bed is five hundred dollars, and for a child's bed three hundred dollars.

ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-two to thirty-three years of age and hold a high school diploma, or the equivalent thereof. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact, also a letter of recommendation from a clergyman, and the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other training schools. *The reasons for rejection are not given either to applicants for admission or probationers on duty*, neither are letters addressed, personally, to the authorities of the Hospital returned.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Candidates whose names are on the emergency list must be ready to respond to a call within twenty-four hours after notification.

Any change of plan, or of address, on the part of a candidate whose name is on the waiting list should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done in the Hospital.

Each probationer, who passes through a probationary term not exceeding six months (this period being included in the three years' course), will be admitted to the school, and will then be required to sign a written agreement to remain in the School for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of probationers for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency.

Nurses after they are admitted to the School are required to wear the Training School uniform while on duty. In addition to board, lodging, and laundry, each nurse is furnished with her uniform and text-books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms and text-books belong to the School, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7 P.M. for day staff; 7 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 12:30 P.M.; Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the hospital, as may be necessary.

Three weeks vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If readmitted, she must begin her course anew; provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

ADMISSION OF PATIENTS

DISEASES TREATED

All kinds of *acute, curable, and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING

Applications received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD

GENERAL WARDS

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patients's discharge.

Applicants applying for FREE treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS

Single rooms from \$3.50 to \$12 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES

No officer, nurse, or servant is allowed to receive any fee or gift from a patient.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for the irprivate treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

RULES FOR PATIENTS

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere ex-

cept in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M., on Tuesdays and Fridays, and on Sundays by special pass from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the men's wards, nor men visitors into the women's wards.

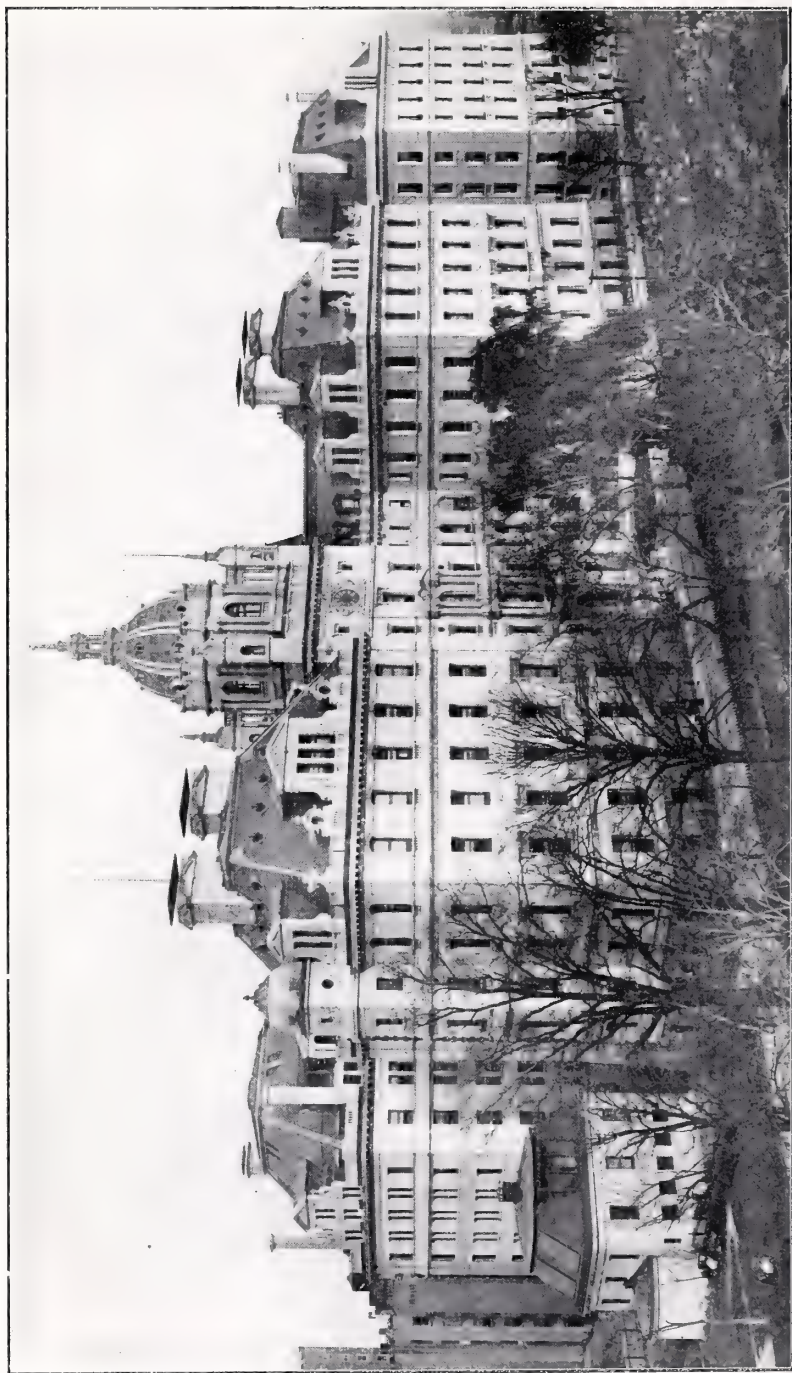

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the attending doctor, daily from 10 A.M. to 1 P.M., from 3 to 5, and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 P.M.

6. The friends of patients are cordially invited to the Chapel services on Sunday at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

CHAPEL WINDOW

THE FIFTY-SECOND ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL

FOR THE YEAR ENDING SEPTEMBER 30, 1910

Beyond the appeal made by its existence and work, the Annual Report showing the need of increased endowment, and the yearly circular asking for contributions to the Century Fund, it has not been the custom of St. Luke's to issue appeals for financial aid, and this course has been amply justified by gifts and legacies, large both in number and amount, annually received for many years.

CENTURY FUND

The Century Fund, meaning an annual subscription of One Hundred Dollars by one hundred persons, was inaugurated by Dr. Muhlenberg, and for a number of years, being fully subscribed, produced annually Ten Thousand Dollars. The death, however, of many of the original subscribers and the fact that, naturally, a younger generation has not all the association and sentiment regarding Dr. Muhlenberg which brought a response to his appeal during his lifetime and for several years afterward, has made it difficult of late to maintain the Fund at its full amount.

The value of Dr. Muhlenberg's work for St. Luke's is incalculable. His faith, devotion and influence founded and carried well on to perfection a hospital endowed and supported by private means and affiliated with the Church in organization and management, an undertaking at the time he conceived it altogether, in this country at least, novel and untried.

Dr. Muhlenberg's name and fame will survive without other tributes, but it is desirable on the part of St. Luke's that its relations and obligations to him be not forgotten either within its own walls or by the public, and as a recognition and reminder of this the Century Fund should be perpetually maintained.

It has been thought best, therefore, to give a prominent place in this report to an appeal for the Century Fund, calling attention to its origin and condition, in the hope that relations and friends of the donors to the Fund who have died, and others interested in the Hospital, will become contributors.

Grateful acknowledgment is made of gifts received either direct from donors or by bequest during the past year. Through these and others previously made, the resources of the Hospital are now large, but while the income has increased, demands upon it for extension of its work grow in greater proportion, and the response to these demands cannot always be restricted to the income.

In the last Annual Report it was stated that the work of the Hospital had been greater than in any previous year, but the year just closed shows an increase in all directions. The patients received in the Hospital have been greater by 294. The number of days of treatment exceeds those of last year by 1,141. In the Out Patient Department 1,012 more patients have been attended and the visits by them have increased 2,443. The total number of persons treated by the institution was 17,439 against 15,558 last year.

With this pressure upon the Hospital it was felt that the opening of another ward could be no longer postponed, and a third ward for medical patients has lately been opened, with the earnest hope that means to support the additional work would become available, notwithstanding an excess of expenditures of the past year over receipts of \$13,572.06.

This leaves one ward still to be opened, and experience has shown that there will soon be an almost irresistible demand for this one also to be made available for patients.

Owing to the condition of his estate nothing has been received by the Hospital from the bequest for the care of convalescent patients under the will of Mr. William Wheeler Smith, and consequently no plan has yet been formulated for execution of the terms of the bequest.

BUILDINGS

The Travers Memorial Pavilion for the Out Patient Department, servants' quarters and roof wards, is nearing completion and will, it is expected, be ready for occupancy before the close of the calendar year.

Delays have been encountered in the rebuilding and enlarging of the Pathological Laboratory, but it is now so nearly completed that the extension of work in pathological studies, as provided for in the bequest of Miss Zela Gibbes, should be begun ere this report is in print.

Three more of the pavilions included in the general plan of buildings, one on Morningside Avenue and two on Amsterdam Avenue, will be erected when means are provided for their construction and maintenance.

CENTRAL PURCHASING BUREAU

As an effort towards economy and to facilitate the purchasing of supplies, many of the hospitals and dispensaries, together with Columbia University, have combined in the establishment of an agency known as "The Bureau of Standards and Supplies," and though it has been in operation but six months, there is already reason to believe that the Bureau will become a valuable factor in the economical administration of hospitals and in their co-operation with each other.

DEATHS DURING THE YEAR

The Hospital has been bereaved through the death of one of the oldest and most beloved members of the Board, Gordon Norrie. A resolution adopted by the Board relative to Mr. Norrie is appended to this report.

Dr. Andrew H. Smith, Attending Physician from March, 1873, to January, 1881, and Consulting Physician since September, 1887, died April 8th, 1910. Dr. Smith some years ago retired from practice and made his home at Geneva, N. Y. The valuable services he rendered St. Luke's while on active duty are deeply appreciated by our Board.

CHANGES IN THE MEDICAL AND SURGICAL STAFF

On October 25th, 1909, Dr. J. Preston Miller and Dr. Frank C. Keil were appointed Assistants in the Surgical Division of the Out Patient Department.

On November 29th, 1909, Dr. Abbott T. Hutchinson was appointed Assistant in the Otological Division of the Out Patient Department.

On February 28th, 1910, Dr. Henry S. Patterson was appointed Associate Attending Physician to the Hospital.

On April 25th, 1910, the resignation of Dr. W. P. Herrick, Assistant in the Surgical Division of the Out Patient Department, was accepted with regret.

On May 31st, 1910, the resignation of Dr. Hans Zinsser, Bacteriologist to the Hospital, was accepted with regret, and Dr. J. G. Hopkins was appointed Bacteriologist.

We acknowledge with much appreciation the services of the Attending and Consulting Staff, which have been rendered as heretofore to ward patients without financial remuneration.

By order of the Board of Managers.

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

EXTRACT FROM MINUTES OF MEETING OF BOARD OF MANAGERS, NOVEMBER 29, 1909

The death of Mr. Gordon Norrie having occurred on November 8th, 1909,

On motion, it was

RESOLVED, that the following be placed upon the minutes of this meeting and that a copy of the same, properly engrossed, be sent to the family of Mr. Norrie:

Mr. Gordon Norrie was a member of the Board of Managers of St. Luke's Hospital from April 25th, 1881, until his death, and was Treasurer of the Hospital from June 6th, 1882, until March, 1906, succeeding in the office his father, Mr. Adam Norrie, who was Treasurer from May, 1853, until he died in 1882.

This record of office held by father and son for over fifty successive years is in itself remarkable, but the more noteworthy because during the whole period, whether in the administration of the one or the other, there was the same wise and unfailing devotion to the financial interests of the institution, and the same successful management of its invested funds.

Apart from his duties as Treasurer, Mr. Norrie was devoted to the interests of the Hospital as a member of this Board and of the Executive Committee, rarely being absent from the meetings of either until the failure of his health compelled it; and his intelligence and experience, combined with a conscientious desire to reach a right conclusion in any matter under consideration, made his advice especially valuable.

Mr. Norrie was also liberal in his benefactions to the Hospital, making frequent gifts to increase the convenience and the comfort of the patients, while the window erected by him as a memorial to his father and to Rev. Dr. Muhlenberg, is the chief adornment of the Chapel.

As an associate in this Board, as a greatly valued friend, as one who in his character, life and influence illustrated the highest standard of Christian manhood, we mourn the loss of Mr. Norrie, and adopt this resolution a loving tribute to his memory.

TO THE TRUSTEES OF ST. LUKE'S HOSPITAL.

GENTLEMEN: We have examined the securities, consisting of stocks, bonds and mortgages belonging to St. Luke's Hospital, in the hands of the Union Trust Company, and compared them with a list verified by Mr. O. E. Morton, the Certified Public Accountant, and the list and the securities seem to agree.

The balance shown by the Cash Book on September 30, 1910, is certified to be on deposit with the Union Trust Company.

The books are being examined by Mr. O. E. Morton, a Certified Public Accountant, who will report to the Board through the Auditing Committee.

(Signed) GEO. GRAY WARD,
Auditing Committee.

OSCAR E. MORTON
CERTIFIED PUBLIC ACCOUNTANT
Room 916
56 & 58 Pine Street

NEW YORK, Oct. 18th, 1910.

MR. HENRY C. SWORDS, *Chairman*,
Auditing Committee,
St. Luke's Hospital, New York.

I hereby certify that I have examined the books and accounts of Mr. H. D. Babcock, Treasurer of St. Luke's Hospital, for the fiscal year ending 30th September, 1910, as kept by the Union Trust Company, acting as Assistant Treasurer, and I find the same to be correct and to agree in all respects with the vouchers for expenditures.

I further certify that I have examined the list of securities of 30th September, 1910, and the same agrees with the audited list of 30th September, 1909, plus the addition and less the deductions, which have been properly accounted for.

All due interest has been credited to Interest Account, and there were no arrearages.

The annual statements bear my initial as evidence of my examination.

IN WITNESS WHEREOF, I set my hand in New York, the date first above written.

(Signed) OSCAR E. MORTON,
C. P. A.

CENTURY FUND

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100.00 each toward supplying the difference between the annual expenses of the Hospital and its income.

The work of the Hospital for the past year is found on pages 29-40. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 16.

The number of subscriptions last year was 91.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least two hundred and fifty thousand dollars to the

General Endowment Fund

One ward still remains vacant.

Three hundred and seven patients were declined last year because of insufficient accommodation in the wards now open.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

A large benefaction is needed for the endowment of a District Nursing and Social Workers Fund.

Your Help is Earnestly Solicited

For endowment of beds, see page 57.

For Century Fund, see page 22.

The opening of another ward for medical patients has relieved a perplexing situation and meets a long felt need. The Officers and Nurses are no less grateful to have the problems that come from congestion and overcrowding solved by increased accommodation than are those who seek relief from their ills.

I beg again to draw your attention to our needs in the field of district nursing and social work. The district assigned to us by the Association of Tuberculosis Clinics and Board of Health is a large one, extending from 86th Street to the end of the Island west of 8th Avenue. We have two nurses for this work with periodical assistance from the Board of Health. This number is not sufficient to meet the demands that come to them. The relief required by patients and their families is often more than can come from the professional attention of nurse or doctor. The needs are nourishment, appliances and clothing. Our efficient Head Nurse, Miss Kiel, who, it is regretted, is about to leave us on account of ill health, has been able through interested friends of the work to meet many requirements of this character. As these gifts have been made directly to her, mention of their receipt and disbursement is here made and our gratitude hereby expressed.

The following institutions have this year, as for many years past, received our convalescent patients:

- Sea Cliff Home for Babies, Long Island.
- Campbell Cottage, White Plains, N. Y.
- Maple Cottage, Peapack, N. J.
- Isabella Heimath, New York City.
- St. Andrew's Convalescent Hospital.
- The New York Home for Convalescents.
- St. Elizabeth's Home for Convalescent Women, Spring Valley, N. Y.

Mention of our appreciation would be incomplete if it failed to contain an acknowledgment of the invaluable service of Axel C. Hallbeck, masseur, who has been in regular attendance at the Surgical Clinics in the Out Patient Department, where he has, without remuneration, given treatment to such poor patients as required his ministrations.

Mr. J. H. Alexandre has again given great pleasure to the children committed to our care by twice taking them for outings on his yacht.

I take pleasure in reporting to you the faithful and efficient services of officers and many employees during the year.

Respectfully submitted,

GEORGE F. CLOVER, *Superintendent.*

Fresh air treatment for tubercular patients in their own homes. Tents furnished and patients cared for by our Home Nursing Department.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

GENTLEMEN.—The Pastoral Statistics for the year are as follows:

Baptized	12	
Confirmed	1	
Marriages	5	
Funerals	53	
Holy Communion:		
In Chapel	30	
In Wards	90	(978 Communicants.)
In private and in extremis....	174	

The accustomed order of services has prevailed throughout the year. Thus Holy Communion, in the Chapel, has been celebrated on the first Sunday in each month at 10:30 a. m., on the third Sunday in each month at 8:00 a. m., and on greater festivals at 8:00 a. m. In the wards a celebration is held every Sunday in two wards in regular rotation, save during the summer vacation season, when there is but one Communion service in the wards. By this means each of the adult wards is given a celebration of Holy Communion once a month. Other services are held as follows: In the Chapel, on Sundays, Morning Prayer with sermon (except on the first Sunday of the month as hereinbefore mentioned) at 10:30 a. m., and Evening Prayer with short address at 4:00 p. m.; while, through the week, Evening Prayer is said daily at 6:00 p. m. A short form of family prayer is used daily in every ward of the house, save the Infants' Ward, between the hours of 8:30 and 9:30 a. m.

On the Sunday after St. Luke's Day was held the Annual Service of Praise and Thanksgiving, a very large attendance being present. The festival character of Christmastide and Eastertide was heightened through the kindly rendered services of the choir of Holy Trinity Church, which sang a group of carols in each of the wards.

The Rt. Rev. S. C. Partridge, Missionary Bishop of Kyoto, during the absence of the Bishop of the Diocese, visited the Hospital to administer the Rite of Confirmation, the service being held in one of the wards.

The regular bedside ministrations of the Assistant Pastor have been continued throughout the year. The singing of hymns and sacred selections in the Children's Wards and also in other Wards of the house under the terms of the James Morris Fund, is greatly appreciated by the patients.

The facilities of the Library have been much aided by gifts from friends of the Hospital, especially by the gift from J. Ackerman Coles, M. D., embracing sets of standard authors, as well as other sets, scientific and literary, well bound and in large

type. When, as in the present year, over 5,000 books are distributed annually, it is evident that the patients' requests embrace all subjects, and accordingly all books are most welcome; the greatest need, however, at the present time, is for volumes in German and Italian, strongly bound.

The Library statistics for the year are as follows:

Books distributed in wards.....	2,865
Books distributed to private patients.....	2,278
Books distributed to officers and employees.....	274
Total number of magazines distributed.....	3,304
Books donated during the year.....	311

The Pastor's Fund for the year has been administered as follows:

ENDOWMENT OF BEDS

A bed in an adult's ward may be endowed by the payment of a sum not less than \$7,500.

A bed in a child's ward may be endowed by the payment of a sum not less than \$5,000.

The annual income of such endowment shall be applied to the cost of maintaining a patient upon the bed endowed so far as such income will suffice to pay such cost; and the founder and a successor named by him shall have the right of nomination.

The annual charge for the support of an adult's bed is five hundred dollars, and for a child's bed three hundred dollars.

ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-two to thirty-three years of age and hold a high school diploma, or the equivalent thereof. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact, also a letter of recommendation from a clergyman, and the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other training schools. *The reasons for rejection are not given either to applicants for admission or probationers on duty*, neither are letters addressed, personally, to the authorities of the Hospital returned.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Candidates whose names are on the emergency list must be ready to respond to a call within twenty-four hours after notification.

Any change of plan, or of address, on the part of the candidate whose name is on the waiting list should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done in the Hospital.

Each probationer, who passes through a probationary term not exceeding six months (this period being included in the three years' course), will be admitted to the school, and will then be required to sign a written agreement to remain in the School for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of probationers for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Com-

mittee, dismiss any nurse at any time for misconduct or inefficiency.

Nurses after they are admitted to the School are required to wear the Training School uniform while on duty. In addition to board, lodging and laundry, each nurse is furnished with her uniform and text-books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms and text-books belong to the School, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A. M. to 7 P. M. for day staff; 7 P. M. to 7 A. M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 12:30 P. M.; Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the hospital, as may be necessary.

Three weeks vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If readmitted, she must begin her course anew; provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED

All kinds of *acute, curable, and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING

Applications received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD

GENERAL WARDS

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS

Single rooms from \$3.50 to \$12 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physician's orders, and meals served at regular hours.

AS TO FEES

No officer, nurse, or servant is allowed to receive any fee or gift from a patient.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect to receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

RULES FOR PATIENTS

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the ward as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P. M., on Tuesdays and Fridays, and on Sundays by special pass from 4.15 to 5 p. m.

3. Women visitors, unless near relatives, are not admitted into the men's wards, nor men visitors into the women's wards.

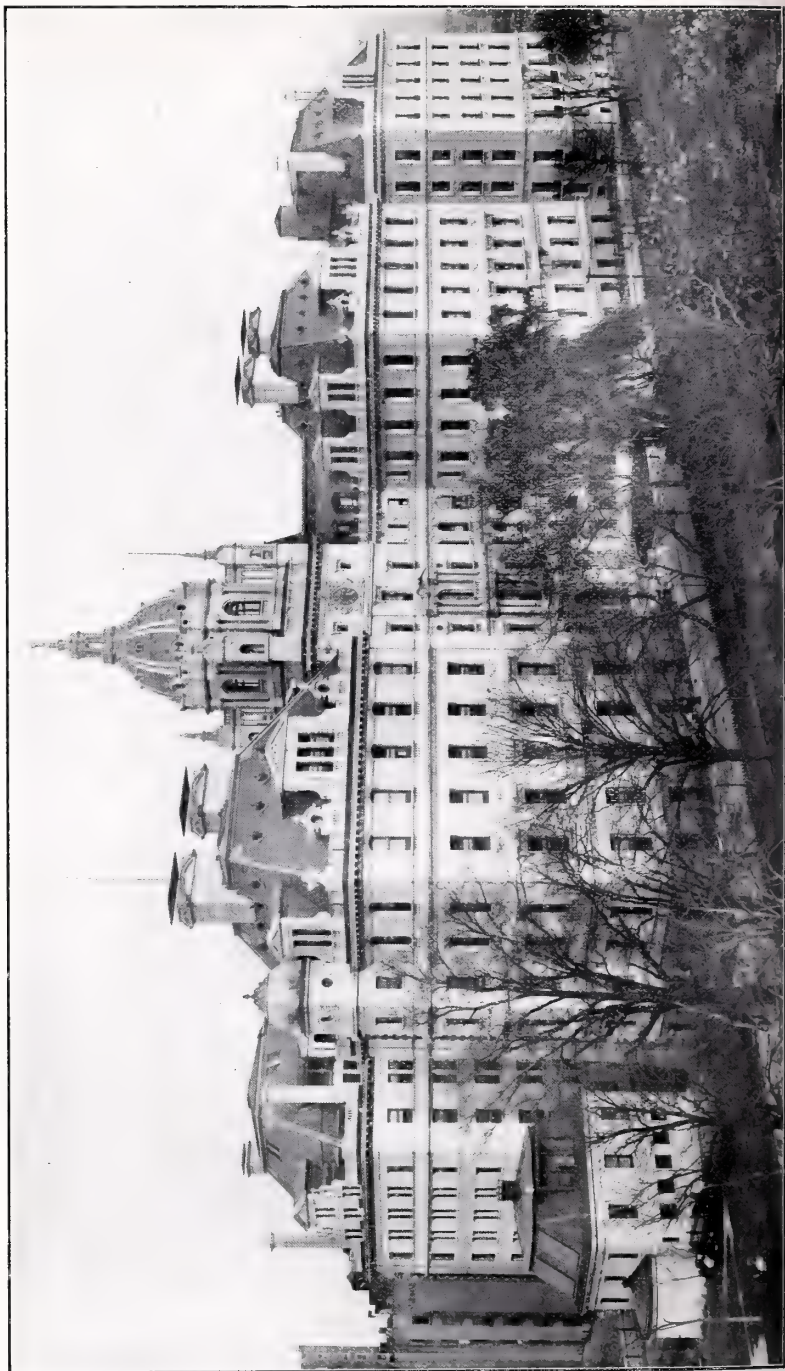

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to private patients will be taken to their rooms, under restrictions imposed by the attending doctor, daily from 10 A.M. to 1 P.M., from 3 to 5, and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 P.M.

6. The friends of patients are cordially invited to the Chapel services on Sunday at 3.30 p. m.

7. In case of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.

ST. LUKE'S HOSPITAL
REAR VIEW
TRAVERS PAVILION IN FOREGROUND

THE FIFTY-THIRD ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

ST. LUKE'S HOSPITAL

FOR THE YEAR ENDING SEPTEMBER 30, 1911

The statistics of the year exhibit a large increase in the work and activities of the Hospital. The days of treatment of indoor patients are greater by 12,324 than in any previous year. Somewhat more than a year ago the demands made upon us for hospital treatment were so great that it was deemed absolutely necessary to open one of the two wards that, by reason of insufficient income, had long been closed. This step was taken in spite of a deficit at the end of the last fiscal year of \$13,500, and with the faith that a large portion of the money necessary to carry on this increased work would be forthcoming. Our faith has not been disappointed, for, even with the large additional work, the income available for general hospital maintenance has been but \$17,888.39 less than expenditures, making the deficit \$4,316.33 more than it was last year. The demands for care and treatment, however, grow more rapidly than our available capacity and the importunities at times are such that it is difficult to resist opening the last of the closed wards.

NEEDS OF THE INSTITUTION

Besides that as above indicated, there are two great needs—the one a fund yielding an income of at least \$6,000 a year for social or relief work. We have now two nurses in the field working among the tuberculous patients in the district. To do this work thoroughly and accomplish better results, we should add another nurse, but beyond this we should follow up the patients of the medical and surgical clinics of our Dispensary and see that they get in their own homes such care as is required. Many of our ward patients too might be discharged at an earlier day if we had a working force to place them properly and attend them after they are discharged. It is too often the case that all that has been accomplished by weeks of treatment in the Hospital is

lost by a lack of care, or the stress of worry and anxiety in providing for self-maintenance for a period following their discharge.

The other need is that of a well equipped and maintained Roentgen Ray Laboratory. A scheme for such Laboratory has lately been presented to our Board by the Medical Board and it is our desire to fulfill the wishes of the Medical Board in this connection. To do so will require an annual expenditure of approximately \$10,000, or an endowment of \$250,000.

NEW BUILDING

The Travers Pavilion, provided by bequest of Mrs. Mary Travers Heckscher, is practically completed and will be dedicated on St. Luke's Day, October 18th. It contains in the basement a Drug Department, Carpenter and Paint Shops, ice making and refrigerating machinery room and coal vaults; on the first and second floors an admirably planned Out Patient Department; above these, dormitories for servants, and over all solarium and roof wards for outdoor or fresh air treatment of patients.

THE PLANT PAVILION FOR PRIVATE PATIENTS

This building, erected through the generosity of the late Mrs. Margaret J. Plant Graves, has, in its benefits, fulfilled the anticipations of the donor and of the Managers. Through it private patients have been accorded care in illness amid surroundings unequalled elsewhere, while the income derived from the building has enlarged the charity work in the wards to an extent quite equal to that which would have obtained had the amount given by the donor for the erection of the building been invested and the income applied directly to the maintenance of free patients in the wards.

It has been the policy of the management to permit physicians and surgeons other than those of the regular Hospital Staff to attend their own patients in this pavilion and this privilege has won the hearty approval and appreciation of many doctors.

GIFTS AND LEGACIES

The gifts and legacies received during the year, which are gratefully acknowledged, were as follows:

Bed endowed by Miss Sophia R. C. Furniss in memory of her father, William P. Furniss.....	\$7,500.00
Child's Bed endowed by legacy of Mrs. Charlotte D. Ferry, to be called "The Ferry Bed," in memory of her late husband, E. LeRoy Ferry.....	3,000.00
Child's Bed endowed by legacy of Eliza G. Landreth.	5,000.00

Additional instalments on account of Rockland County Bed	100.00
Alumnæ Association Private Room Fund, additional endowment of private room for sick nurses.....	3,000.00
Gift of Francis C. Wood, M.D., complete set of "Zeitschrift fur Wissenschaftliche Mikroskopie" up to Volume XXV, for the Pathological Laboratory.	

DEATHS DURING THE YEAR

On December 22d, 1910, Mr. A. Lanfear Norrie, Manager since 1907, died. Appended to this report is a copy of the resolution unanimously adopted by the Board at its meeting held January 30th, 1911.

St. Luke's, together with many of the New York and other institutions, suffered a keen loss in the death of the eminent and brilliant Edward G. Janeway, M.D., who was Consulting Physician from September 24th, 1906, until his death, February 10th, 1911.

Mr. William Alexander Smith, although for some time (through advanced age and infirm health) retired as Manager of the Hospital, was for so many years its active worker, wise counsellor and generous benefactor, that we are constrained to depart from our usual custom of recording in our necrology those only who die while in office of Manager, and pay to him our tribute of respect and affection. Mr. Smith was a member of the Board from November 26th, 1867, to October 25th, 1909, Vice President from October 30th, 1899, to October 18th, 1905, and for many years Chairman of the Executive Committee.

CHANGES IN THE MEDICAL AND SURGICAL STAFF

On October 31st, 1910, Dr. Wesley C. Bowers was appointed Assistant in the Otological Division of the Out Patient Department.

On November 28th, 1910, Dr. Lefferts Hutton and Dr. A. L. Malabre were appointed Assistants in the Surgical Division of the Out Patient Department.

On December 28th, 1910, Dr. N. B. Foster and Dr. H. O. Mosenthal were appointed Assistants in Chemistry in the Pathological Department, and Dr. H. D. Urquhart was appointed Assistant in the Orthopedic Division of the Out Patient Department.

On January 11th, 1911, Dr. H. C. Luke was appointed Instructor in Anesthetics to the Hospital.

On March 27th, 1911, the resignation of Dr. T. C. Janeway as Attending Physician to the Hospital was accepted with regret.

On April 24th, 1911, Mr. E. C. Kendall was appointed Assistant in Chemistry in the Pathological Department, Dr. Nathan W. Green was appointed Second Surgical Assistant, Division A, and Dr. H. G. Bugbee was appointed Cystoscopist to the Hospital.

On May 31st, 1911, Dr. Otto H. Leber was appointed Assistant in the Surgical Division of the Out Patient Department.

On June 5th, 1911, Dr. Lewis F. Frissell was appointed Associate Attending Physician, Division A.

On September 25th, 1911, the resignation of Dr. H. O. Mosen-thal, Assistant in Chemistry in the Pathological Department, was accepted.

CHANGES AMONG THE HOUSE OFFICERS

The resignation of the Rev. H. Newman Lawrence, Assistant to the Superintendent since November, 1903, was accepted March 27th, 1911 (to become effective June 1st) with regret. Mr. Lawrence had rendered faithful and efficient service to the Hospital and was affectionately esteemed by its House Officers and Staff.

On April 24th, the Rev. Floyd S. Leach was appointed Assistant to the Superintendent and entered on the duties of that office June 1st, 1911.

We acknowledge with much appreciation the services of the Attending and Consulting Physicians and Surgeons rendered to the ward patients throughout the year, as in former years, without financial recognition.

By order of the Board of Managers,

GEORGE MACCULLOCH MILLER,

President.

HOFFMAN MILLER,

Secretary.

EXTRACT FROM MINUTES OF MEETING OF BOARD
OF MANAGERS, JANUARY 30, 1911.

The death of Mr. A. Lanfear Norrie having occurred on December 22d, 1910,

On motion, it was

RESOLVED, that the following be placed upon the minutes of this meeting:

Mr. A. Lanfear Norrie, chosen a member of the Board of Managers of St. Luke's Hospital on October 18th, 1907, brought to the Board personal characteristics causing him to be regarded as a valuable associate both in the business and intercourse of the Board. Besides these qualifications, there were those attracting to him as the grandson of Mr. Adam Norrie, a Manager from December 16th, 1850, to his death on June 6th, 1882; and Treasurer from May 30th, 1853, to the time of his death, than whom none rendered more efficient and devoted service to St. Luke's. Also, through his father, Mr. Gordon Norrie, a Manager from April 25th, 1881, to his death on November 8th, 1909, and Treasurer from June 6th, 1882, to March 26th, 1906, when he resigned on account of ill health, having contributed largely to the advancement of the Hospital by liberal gifts and by his devotion to all its interests.

This lineage of itself made the choice of Mr. A. Lanfear Norrie fitting, and his relations to the Hospital have been throughout most agreeable and satisfactory.

NEW YORK, October 16th, 1911.

TO THE TRUSTEES OF ST. LUKE'S HOSPITAL:

GENTLEMEN: We have examined the securities consisting of \$2,400,500 bonds and mortgages, \$70,500 par value of bonds and \$11,000 par value of stocks belonging to St. Luke's Hospital in the hands of the Union Trust Company, compared them with a list verified by Mr. O. E. Morton, the Certified Public Accountant, and the list and securities seem to agree.

The balance shown by the balance sheet of cash on hand, principal and income account together, amounting to \$127,312.67, the Union Trust Company certifies to be on deposit in that institution under date of September 30th.

We enclose herewith report of Mr. O. E. Morton, Certified Public Accountant, of certain examinations made by him.

OSCAR E. MORTON
CERTIFIED PUBLIC ACCOUNTANT
1828 Park Avenue

NEW YORK, Oct. 14, 1911.

MR. HENRY C. SWORDS, *Chairman*,
Auditing Committee,

St. Luke's Hospital, New York:

I hereby certify that I have examined the books and accounts of Mr. H. D. Babcock, Treasurer of St. Luke's Hospital, for the fiscal year ending 30th September, 1911, as kept by the Union Trust Company, acting as Assistant Treasurer, and I find the same to be correct and to agree in all respects with the vouchers for expenditures.

I further certify that I have examined the list of securities of 30th September, 1911, and the same agrees with the audited list of 30th September, 1910, plus the addition and less the deductions, which have been properly accounted for.

All due interest has been collected with the exception of that due on a mortgage of \$9,000.00, from 1st Feb., 1911, at 5½% covering the property 1741 Topping Ave.

The annual statements bear my initial as evidence of my examination.

IN WITNESS WHEREOF, I set my hand in New York, the date first above written.

(Signed) OSCAR E. MORTON,
C. P. A.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100.00 each toward supplying the difference between the annual expenses of the Hospital and its income.

The work of the Hospital for the past year is found on pages 31-42. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 18.

The number of subscriptions last year was 98.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Special Appeal

For continuing the work on the scale of the past year, there is needed an addition of at least four hundred thousand dollars to the

General Endowment Fund

One ward still remains vacant.

Three hundred and seven patients were declined last year because of insufficient accommodation in the wards now open.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

A benefaction is needed for the endowment of a District Nursing and Social Workers Fund.

A large gift, approximately \$250,000.00, is required for the endowment of a Roentgen Ray Laboratory.

Your Help is Earnestly Solicited

For endowment of beds, see page 60.

For Century Fund, see page 24.

On January 11th, 1911, twenty-nine nurses were graduated, the address being delivered by the Rev. Canon George William Douglas, D.D., and the diplomas presented by the President of the Medical Board in behalf of the President of the Hospital.

Through the additional provision for servants in the Travers Pavilion, the Vanderbilt Pavilion, or Nurses' Home, has been vacated by all save nurses and is now for the first time being used for the purpose for which it was intended, namely, a Nurses' Home, the upper stories being appropriated to nurses on night duty, who now have during their sleeping hours of the day the quiet they so much need.

Two rooms, one for lectures and the other for demonstration purposes, have also been provided.

It is a pleasure to report that the health of the nurses has been remarkably good throughout the year.

The physicians to the Training School, Dr. Hollis and Dr. Gould, have again kindly given their professional services to the pupils of the Training School during illness without financial remuneration, which services we gratefully acknowledge.

The substitution of motor ambulances for horse drawn vehicles has enabled us to give prompt attention to ambulance cases during the year.

Notwithstanding an unusually large expenditure in the maintenance of buildings and grounds, for machinery and tools, the installation of a new and fireproof drying room in the laundry, the overhauling and modernizing of the bakery, and the introduction of better, even though more costly methods, such as the employment of three salaried anesthetists and the three shift system in the Engineer's Department, the per capita expense, both for ward patients and for private patients, has been considerably decreased. This diminution has come about through strenuous efforts to prevent waste and also because of the large increased number of days of treatment.

In the Department of District Nursing the work has been conducted on the same lines as last year. Two nurses are still endeavoring to cover the territory extending from 86th Street to the end of the Island and from the North River to Eighth Avenue. This number is insufficient, and to accomplish good results we should have at least two more nurses.

The Fresh Air Work has been slightly increased, but much could be done if the nurses had more time to devote to it.

The preventive work amongst children exposed to tuberculosis is most important. Much in this line remains to be done.

The actual number of patients visited was slightly less than last year. This was owing to the fact that during the summer the Board of Health was not able to render us the customary assistance in this Department.

The following tabulations exhibit the gifts made directly to the Head Nurse for this work and the manner in which they were expended:

Our thanks are again due to the following institutions for receiving our convalescent patients during the year:

Home for Babies, Sea Cliff, L. I.

Isabella Heimath, New York City.

New York Foundling Hospital.

Lakeside Memorial Home for Convalescent Women, Litchfield, Conn.

Mr. Axel C. Hallbeck, Masseur, has throughout the year rendered valuable assistance in the Out Patient Department, where he, with the help of his students, has given gratuitous treatment to poor patients.

Respectfully submitted,

GEORGE F. CLOVER, *Superintendent.*

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS:

GENTLEMEN.—The Pastoral Statistics for the year are as follows:

Baptized	13	
Confirmed	7	
Marriages	2	
Funerals	50	
Holy Communion:		
In Chapel	30	
In Wards	87	(981 Communicants)
In private and in extermis..	179	

Throughout the year the services in the Chapel and in the Wards have been held in their accustomed order. The Chapel services consist of two celebrations of Holy Communion monthly, on the first Sunday of the month at 10:30 a. m. and on the third Sunday of the month at 8:00 a. m. Morning Prayer is said in the Chapel each Sunday of the month save the first Sunday, and Evening Prayer is said every Sunday in the year at 3:30 and every weekday in the year at 6:00 except Christmas Eve, when the service is held at 5:00. In the Wards a celebration is held every Sunday in two wards in regular rotation, save during the summer vacation season when there is but one Communion service in the Wards. This service is uniformly held at 10:30. On week-days a short form of Family Prayer is used daily in every Ward, except the Infants' Ward, between the hours of 8:30 and 9:30 a. m., hymns being sung in the Children's and Convalescent Wards.

The Annual Service of Praise and Thanksgiving was held on the Sunday after St. Luke's Day and was largely attended. At Christmastide and Eastertide the choir of Holy Trinity Church Sunday School visited the hospital and added greatly to the cheer of the patients by singing a group of carols in each of the wards of the house.

The Bishop of the Diocese, the Rt. Rev. David H. Greer, visited the hospital to administer the rite of Confirmation, five of the confirmands being pupils of St. Luke's Training School. The service was held in the Chapel.

The regular bedside ministrations of the Assistant Pastor have been continued throughout the year. Statistics of work of this character are difficult to give, but in addition to customary welcoming rounds, visits before operation, etc., over 400 names are listed as having had special services in the Wards. Under the terms of the James Morris fund, the singing of hymns and sacred selections in the Wards—especially the Children's Wards—has been continued, greatly to the pleasure of the patients.

The facilities of the Library of the Hospital have been much

improved by gifts from friends, notably Mr. George Macculloch Miller, President of the Hospital, Mrs. J. H. Van Amringe and several publishing firms who responded generously to an appeal issued in the spring, especially the Macmillan Co., Doubleday, Page & Co., McClure, Phillips & Co., and the Bobbs-Merrill Co. The work of the Library is growing steadily, both with regard to books distributed to private patients and in the wards, and it is most unfortunate that there is no fund available for the purchase of books. Thus, for example, some two or three-score books which are urgently demanded can never be supplied, because it may chance that they have not been included in gifts of books made to the Library. An endowment providing a yearly income of \$100 or even \$50 would add very greatly to the efficiency of Library service.

The value of the Henrietta H. Smith Periodical Fund whereby illustrated papers and periodicals to the yearly value of \$50 are purchased for use in the wards of the Hospital grows greater yearly, and a device whereby the finest of the pictures from old numbers are mounted in looseleaf form for the convenience of patients too weak to hold even a book has proved of great advantage.

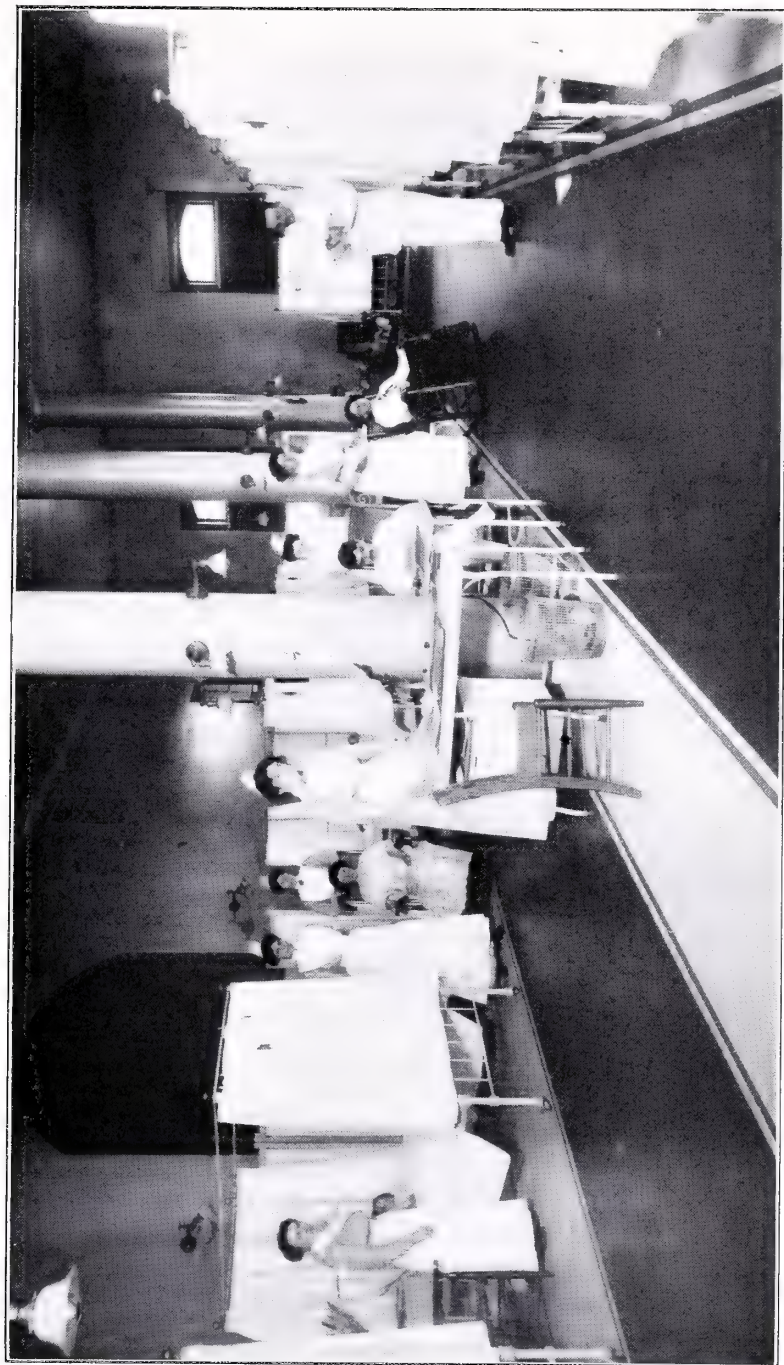

The Library statistics for the year are as follows:

Books distributed in wards	3,011
Books distributed to private patients	2,324
Books distributed to officers and employes	119
Total number of magazines distributed.....	3,388
Books donated during the year.....	242

The Pastor's Fund for the year has been administered as follows:

ENDOWMENT OF BEDS

A bed in an adult's ward may be endowed by the payment of a sum not less than \$7,500.

A bed in a child's ward may be endowed by the payment of a sum not less than \$5,000.

The annual income of such endowment shall be applied to the cost of maintaining a patient upon the bed endowed so far as such income will suffice to pay such cost; and the founder and a successor named by him shall have the right of nomination.

The annual charge for the support of an adult's bed is five hundred dollars, and for a child's bed three hundred dollars.

ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-two to thirty-three years of age and hold a high school diploma, or the equivalent thereof. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact, also a letter of recommendation from a clergyman, and the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other training schools. *The reasons for rejection are not given either to applicants for admission or probationers on duty*, neither are letters addressed, personally, to the authorities of the Hospital returned.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Candidates whose names are on the emergency list must be ready to respond to a call within twenty-four hours after notification.

Any change of plan, or of address, on the part of the candidate whose name is on the waiting list should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done in the Hospital.

Each probationer, who passes through a probationary term not exceeding six months (this period being included in the three years' course), will be admitted to the school, and will then be required to sign a written agreement to remain in the School for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of probationers for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Com-

mittee, dismiss any nurse at any time for misconduct or inefficiency.

Nurses after they are admitted to the School are required to wear the Training School uniform while on duty. In addition to board, lodging and laundry, each nurse is furnished with her uniform and text-books. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms and text-books belong to the School, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A. M. to 7 P. M. for day staff; 7 P. M. to 7 A. M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 12:30 P. M.; Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the hospital, as may be necessary.

Three weeks vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If readmitted, she must begin her course anew; provided, however, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which the Hospital may deem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED

All kinds of *acute, curable, and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING

Applications received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD

GENERAL WARDS

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under 12 years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for *FREE* treatment in whole or in part must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS

Single rooms from \$3.50 to \$12 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physician's orders, and meals served at regular hours.

AS TO FEES

No officer, nurse, or servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect to receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

RULES FOR PATIENTS

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the ward as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services and during the doctor's regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors are not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman not in the house, he must signify the same to the Pastor, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12M. and between 1 and 5 P.M.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P. M., on Tuesdays and Fridays, and on Sundays by special pass from 4.15 to 5 p. m.

3. Women visitors, unless near relatives, are not admitted into the men's wards, nor men visitors into the women's wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to private patients will be taken to their rooms, under restrictions imposed by the attending doctor, daily from 10 A.M. to 1 P.M., from 3 to 5, and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 9 P.M.

6. The friends of patients are cordially invited to the Chapel services on Sunday at 3.30 p. m.

7. In case of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
